REPORT OF FIRE DEPARTMENT

To the Honorable Board of Selectmen,

GENTLEMEN:

The Board of Engineers respectfully submit the following report.

The Department has answered a total of 32 alarms: Grass 13; Woods, 4; Buildings, 4; Chimneys, 3; Miscellaneous, 3; Out of Town, 3; Still, 2.

The Department has installed a new siren on the chemical which is a necessity with the crowded condition of the highways.

Mr. E. P. Motley of Larch Row presented the Fire Department with 24 dozen fibre brooms which in our opinion as fire engineers will be appreciated by the town, as they are exceptionally useful for grass fires.

A cistern has been built on School Street near the School House in accordance with a vote of the town at the last annual meeting.

The following is the property of the Fire Department:

1	combination pumper	1	keg of soda
1	combination chemical	4	gallons sulphuric acid
4	axes	12	rubber coats
2	crow bars	12	pair rubber boots
3	fire hooks	2500	ft, of fire hose
1	stone hammer	300	ft. of 1½-inch hose
1	30-ft. extension ladder	12	galvanized pails
1	35-ft. extension ladder	1	diaphone whistle
2	16-ft. roof ladders	1	roll top desk
4	shovels	5	electric lanterns
3	foamite tanks	1	hose expander
4	hats	1	battery charger

17 Cisterns: One on Walnut Street, near Folsom estate; one on Maple Street, near Burley Street; one at West End Schoolhouse; one at junction of Cedar Street; one on Porter Street, opposite Perkins Street; one on Larch Row, near H. A. Prince's house; one at the junction of Larch Row and Walnut Street; one on Larch Row, near the W. P. Dodge estate; one near the house of Fred Batchelder, Main Street; one near the house of Frank Tarr, Main Street; one opposite the Town Hall, Main Street; one at the junction of Main Street and Larch Row; one near the Pingree house, Main Street; one near the junction of Grapevine Road and Hull Street; one on the property formerly owned by the Street Railway which can be used; one near the James H. Perkins house, Main Street; one on Arbor Street, near School Street, one on School Street, near Schoolhouse.

24 Chemicals, located as follows: Two at Addison Williams' house, two at Town Hall, one at Harry Pulsifer's house, two at H. E. Durgin's house, five at Center schoolhouse, eleven at Engine house.

Respectfully submitted,

HORACE A. KILLAM, *Chief,*

THOMAS J. LUXTON, *Asst. Chief,*

ARTHUR B. KNOWLTON, *Clerk,*

Board of Engineers.

REPORT OF PARK COMMISSION

To the Citizens of the Town of Wenham:

The Park Commission met the first of the year and was organized by the election of Jacob D. Barnes, Chairman, and Joseph Lynch, Secretary.

The Soldiers' Monument, Peters' Monument and Mounds.

On the Car barn lot, we have put in several loads loam, plowed it, and seeded it to rye, and hope to have it in good condition for the summer.

The Pingree Park land has been cared for and has been used for baseball and football.

Respectfully submitted,

JACOB D. BARNES,

Chairman.

WARRANT FOR THE ANNUAL TOWN MEETING

March 7th, 1932

Essex, ss.

To either of the Constables of the Town of Wenham in said County, Greeting.

In the name of the Commonwealth of Massachusetts you are hereby directed to notify the inhabitants of the said Town qualified to vote in elections and Town affairs, to meet at the Town Hall in said Town on Monday the Seventh Day of March next, at six O'clock in the forenoon then and there to act on the following Articles.

Election of Officers by Official Ballot (from 6 A. M. to 11 A. M.).

Article 1. To bring in their Ballots for Moderator, Town Clerk, three Selectmen and members of Public Welfare Department, Town Treasurer, Tax Collector, Auditor, Tree Warden, three Constables, all for one year; one Assessor, one member of the Board of Health, one member of the School Committee, one Cemetery Commissioner, one Park Commissioner, one Water Commissioner, two Trustees for the Public Library, all for three years.

Article 2. To act on the reports of the Selectmen, School Committee, Trustees of the Public Library, Cemetery Commissioners and other Town Officers.

Article 3. To raise such sums of money as may be necessary to defray the Town expenses for the ensuing year, make

appropriations for the same and determine the manner of collecting.

Article 4. To see if the Town will authorize the Treasurer to hire money under the direction of the Selectmen in anticipation of taxes of the current year, said loan or loans to be paid from said Taxes.

Article 5. To see if the Town will vote to appropriate a sufficient sum of money to pay the State and Military Aid of the current year.

Article 6. To see if the Town will vote to raise and appropriate the sum of two hundred dollars ($200.00) for the expense of Memorial Day observance, the same to be used under the direction of the Soldiers and Sailors of Wenham.

Article 7. To see if the Town will vote to raise and appropriate the sum of Seventy-five dollars ($75.00) for the expense of maintaining the quarters of Norman Prince Post, No. 182, American Legion.

Article 8. To see if the Town will vote to raise and appropriate the sum of Seventy-five dollars ($75.00) for the observance of Armistice Day, the same to be spent under the direction of Norman Prince Post, No. 182, American Legion of Wenham.

Article 9. To see if the Town will vote to accept the Cemetery Funds as printed in the Town Report.

Article 10. To see if the Town will vote to raise and appropriate the sum of Five hundred dollars ($500.00) to purchase and install in the Town Hall a suitable bronze memorial tablet in memory of the men who served from this Town in the World War or act anything thereon, per petition Norman Prince Post, No. 182, American Legion.

Article 11. To see if the Town will vote to raise and appropriate the sum of One hundred dollars ($100.00) for land damage on Topsfield Road for 1931.

Article 12. To see if the Town will vote to raise the pay of the Firemen to one dollar ($1.00) an hour for services at fires, per petition of Norman C. Tarr and others.

Article 13. To act on the report of the Committee on New Town Hall and War Memorial Building appointed at last Annual Town Meeting.

Article 14. To act on the report of Water Committee appointed to confer with the Salem and Beverly Water Board as to the possibility of purchasing water for Fire Protection.

Article 15. To act on any other business that may legally come before said meeting.

And you are directed to serve this Warrant by posting attested copies thereof, one at the Bulletin Board on Main Street, one at the Chapel at Mapleville, one near the Wenham Neck Church, and one near the residence of Addison Williams in the eastern part of the Town seven days at least before the time of holding said meeting.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place of the meeting aforesaid.

Given under our hands this sixth day of February in the year nineteen hundred and thirty-two.

ELMER E. CLARKE
ARTHUR D. PRINCE
SAMUEL S. CONARY
Selectmen of Wenham.

IN MEMORIAM

This year is another of those in which a member of the Board of Selectmen has died in office, and the one who has thus been called away is Chester S. Cook.

Mr. Cook was born in Wenham and lived here all of his life. He had served the town at various times and in varied capacities until 1919, when he was elected to the Board of Selectmen, where he served until 1923. He was elected again in 1928 and served until the day of his death, March 28, 1931.

He was always ready to do his full share of the work and to assume his full share of the responsibilities of the decisions of the Board; and in his modesty he would often pass honors which belonged to him to other members.

He made his decisions because he thought they were right and for the best interests of the town. He never evaded a task because it was hard or stepped aside because the duty was unpleasant. He enjoyed the service which he was able to render his fellow citizens and was fully worthy of the respect and honor which they paid him at the time of his passing.

SELECTMEN'S REPORT

The street lighting contract ran out in September and we expected that we could have a new one written at a lower price, but the Beverly Gas & Electric Company emphatically said NO. We also tried to get some reduction in the flat rate of 10 cents per kilowatt hour for the current used in our public buildings to correspond to the reductions which are allowed in our residences, but we were also refused in this.

The work on Topsfield Road has been completed from the Topsfield line to the corner of Maple and Cherry streets, and it was expected that in 1932 the work would be continued to the Beverly line.

We were notified by the County Commissioners that they would make no contribution for road work the coming year, and the State Department of Public Works said that under no circumstances would they assume the County's share.

In view of this situation we have decided to ask the town for no new appropriation.

The sidewalk work on Main Street has met with general approval and it is proposed to spend another $1,000.00 in continuing the same kind of construction, the money to be taken from the Highway appropriation.

A curbstone has been placed at the corner of Main Street and Friend Court and the sidewalk lowered on Friend Court at the property of Melville G. Grey, both of which are noticable improvements.

A large amount of filling has been done on Cherry Street at Strait's Hollow at a comparatively small expense. Welch & Moynihan Co., the contractors on the Topsfield Road job had material to dispose of and they gave the town an attractive figure.

The Old Age Assistance law has been in operation for six months and we have taken care of four local cases and at the present writing we have only two.

We take this opportunity to express our appreciation for the co-operation which we have received from the citizens of the town.

ELMER E. CLARKE,
ARTHUR D. PRINCE,
SAMUEL S. CONARY,
Selectmen.

REPORT OF THE NEW TOWN HALL AND WAR MEMORIAL COMMISSION

At the annual meeting held in March, 1931, the town instructed and authorized the moderator to appoint a commission of five members, to which the Board of Selectmen was added, to consider the matter of a New Town Hall and War Memorial Building, as referred to in Article 16 of the warrant of that year.

This commission was instructed to report at the next annual town meeting and at least 30 days previous to that date to hold a public hearing and give such information as they may have obtained.

The five members appointed by the Moderator were John H. Proctor, Horace E. Durgin, Melville G. Grey, Ray G. Knowlton, and Roscoe B. Batchelder. Upon the death of Mr. Proctor, Herbert W. Porter was appointed to fill the vacancy.

The commission has held three meetings, and at the first was organized with Arthur D. Prince, chairman, and Samuel S. Conary, clerk.

As the sum mentioned in the warrant was $125,000.00, it was thought best to find the borrowing capacity of the town.

At the office of the Director of Accounts at the State House, this was found to be $96,276.87, and the borrowing of any larger sum than this would require authorization of the legislature.

The commission did not think it necessary to go to any expense to obtain any opinion as to the legality of raising money by taxation for such features as had been mentioned, namely gymnasium and bowling alley.

But as a "War Memorial" was incorporated in the proposition, it would seem that the question would be broad enough to include whatever equipment the citizens might desire.

We have considered in detail only the financial side of this question, and as you already know this is a very important one. Cities and towns with good credit are finding it difficult to borrow money for current expenses. The County of Essex very recently advertised for bids for two loans. Only one bank offered to take the notes and that at 6% and 6¼%.

Your commission feels that this proposed building is not necessary and that prosperity cannot be promoted by going into debt for what is not needed, and have consequently voted unanimously that the time is wholly inopportune for the further consideration of a New Town Hall and War Memorial Building.

This statement was read at the public hearing which was held at the Town Hall on the evening of January 28, at which about 25 voters were present.

Without comment or discussion the motion was made and unanimously carried that the matter be indefinitely postponed. The hearing was declared closed.

For the Commission,

ARTHUR D. PRINCE, *Chairman.*
SAMUEL S. CONARY, *Clerk.*

It is recommended that the Assessors be authorized to use $2,000.00 of free cash in the treasury in determining the tax rate for the current year.

Under Article 4 it is recommended that the following vote be passed: "That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the taxes of the municipal year beginning March 7, 1932, to an amount not exceeding in the aggregate $60,000.00, and to issue a note or notes therefor payable within one year; any debt or debts incurred under this vote to be paid from the taxes of said municipal year."

Under Article 5 it is recommended that a sufficient sum be appropriated from the treasury to pay the State and Military Aid for the current year.

Under Article 6 it is recommended that the sum of $200.00 be appropriated from the sum raised for Incidentals for the expenses of Memorial Day, the same to be spent under the direction of the soldiers and sailors of Wenham.

Under Article 7 it is recommended that the sum of $75.00 be appropriated from the amount raised for Incidentals for the maintenance of the quarters of Norman Prince Post, No. 182, American Legion.

Under Article 8 it is recommended that the sum of $75.00 be appropriated from the sum raised for Incidentals for the observance of Armistice Day, the same to be spent under the direction of Norman Prince Post, No. 182, American Legion.

Under Article 10 it is recommended that the sum of $500.00 be raised and appropriated to purchase and install in the Town Hall a suitable bronze Memorial Tablet in memory of the men who served this town in the World War, and that the Moderator appoint a committee of five, two of whom shall be members of Norman Prince Post, No. 182, American Legion, to carry out the purpose of this vote.

Under Article 11 it is recommended that the sum of $100.00 be raised and appropriated to pay the balance due for land damage on Topsfield Road in 1931.

Under Article 12 it is recommended that no action be taken.

Under Article 13 it is recommended that the report of the New Town Hall and War Memorial Commission be accepted and that the whole matter be indefinitely postponed.

ARTHUR D. PRINCE,
Clerk.

REPORT OF THE BOARD OF HEALTH OF THE TOWN OF WENHAM

1931–1932

The Board of Health organized in March, 1931, for the ensuing year by electing Frederick A. Webster, M. D., as chairman; Elbridge R. Anderson as Secretary; and Frank H. Tarr as agent.

We have had but one case of measles reported to us this year, two cases of infantile paralysis, and no cases of scarlet fever or diphtheria.

In comparison with previous years, and with 1927 in particular, when we had eighteen cases of scarlet fever alone, you can indeed be thankful for and appreciative of the good work done by your board through a well organized milk inspection with the earnest co-operation of our dairymen. Your board is appreciative of the fact that there is one dairy which has the proper permit and pasteurizes its milk in accordance with the regulations as set down by the State Department of Public Health. Inasmuch as milk is a quite general food, and especially so for our children, the utmost vigilance is necessary to prevent its contamination with disease germs, especially those of scarlet fever, diphtheria, tonsilitis, and tuberculosis. Since such regulations as laid down by the State Department of Public Health for the handling of the milk supply have been enforced in Wenham, there has been a yearly decrease in our contagious diseases since 1927.

Following is the report of Mr. Daley, Milk Inspector:

Beverly, Mass., January 14, 1932.

Health Department, Wenham, Mass.

Your Board wishes to acquaint the residents of Wenham with the diseases declared by the State Department of Public Health to be dangerous to the public health and reportable under the provisions of Sections 6, 7, 109, 111 and 112 of Chapter 111, General Laws.

They are:

Actinomycosis
Anterior Poliomyelitis
Anthrax
Asiatic Cholera
Chicken Pox
Diphtheria
Dog-bite
Dysentery:
  a. Amebic
  b. Bacillary
Encephalitis Lethargica
Epidemic Cerebro--Spinal Meningitis
German Measles
Glanders
Gonorrhea
Hookworm Disease
Infectious Diseases of the Eye:
  a. Ophthalmia Neonatorum
  b. Suppurative Conjunctivitis
  c. Trachoma
Influenza
Leprosy
Lobar Pneumonia
Malaria
Measles
Mumps
Pellagra
Plague
Rabies
Scarlet Fever
Septic Sore Throat
Syphilis
Smallpox
Tetanus
Trichinosis
Tuberculosis (all forms)
Typhoid Fever
Typhus Fever
Undulant Fever
Whooping Cough
Yellow Fever

Further, your Board wishes to inform the residents of Wenham as to the minimum quarantine requirements for contagious diseases of the State Department of Public Health,

approved and adopted by the Wenham Board of Health on May 18, 1928.

Anterior Poliomyelitis (Infantile Paralysis) — Minimum period of quarantine of patient, two weeks from onset of disease, and thereafter until acute symptoms have subsided. Control of contacts: Adults, no restrictions except as to adult food handlers (Note 1); Immune Children, no restrictions; Children not immune, if child lives away from home one week and stays away from home, can re-enter school, otherwise same restrictions as patient. Placard—Yes.

Chicken Pox—Quarantine, seven days and until all crusts have disappeared. Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Diphtheria—Quarantine, one week from date of report and until 2 successive negative cultures, taken at least 24 hours apart, from nose and throat, have been obtained. Contacts: Adults, no restrictions save Note 2; Immune Children, if 2 negative cultures are taken and quarantine is effective, the child can then continue in school; Children not immune, if 2 negative cultures are taken and child lives away from home, then can continue in school; quarantine at home otherwise. Placard—Yes.

Cerebro-Spinal Fever (Cerebro-Spinal Meningitis)—Quarantine, two weeks from onset of disease, and thereafter until all acute symptoms have ceased. Contacts: Adults, no restrictions save in certain occupations (Note 1); Immune Children, if child lives away from home 10 days and continues to live away from home, can re-enter school; Children not immune, If child lives away from home 10 days and continues to live away from home, can re-enter school. Placard—Yes.

German Measles—Quarantine, one week from date of rash.

Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Measles (Note 4)—Quarantine, one week from date of rash. Contacts: Adults, no restrictions save non-immune school teachers; these handled as non-immune children; Immune Children, no restrictions; Children not immune, exclusion from school for 16 days from the date of last exposure.

Mumps—Quarantine, one week from onset of disease, and thereafter until the disappearance of swelling of salivary glands. Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard —No.

Scarlet Fever—Quarantine, four weeks from date of rash and thereafter until the discharges from nose and throat, ear or abscesses or other surfaces (e. g., puerperal or surgical scarlet fever) have ceased. Contacts: Adults, no restrictions save in certain occupations (Note 1); Immune Children, no restrictions if away from home; Children not immune, if child lives away from home one week and continues to live away from home, can re-enter school. Placard—Yes.

Smallpox—Quarantine, three weeks and until crusts have disappeared and skin healed. Contacts: Adults, Note 3; Immune Children, Note 3; Children not immune, Note 3. Placard—Yes.

Whooping Cough—Quarantine, three weeks from beginning of spasmodic cough. Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, exclusion from school 2 weeks from exposure. Placard—Yes.

Typhoid Fever—Quarantine, one week after subsidence of clinical symptoms; if patient is a food handler he must have at least 2 negative cultures from both stool and urine; cultures must be taken at least a week apart (Note 5). Contacts:

Adults, no restrictions save for food handlers who cannot continue any work requiring food handling, without permission from the local Board of Health; Immune Children, no restrictions. Placard—No.

Septic Sore Throat—Quarantine, during the clinical course of the disease and convalescence, complete exclusion of the patient from participation in the production or handling of milk or milk products until permission is granted by local Board of Health. Contacts: Adults, during the clinical course of the disease and convalescence, all contacts to be excluded from participating in the production or handling of milk or milk products until permission is granted by the local Board of Health.

NOTES

1. School teachers should have same restrictions as school children. Food handlers and others whose occupation brings them in contact with children have no restrictions if they live away from home.

2. School teachers must have 2 successive negative cultures taken 24 hours apart; food handlers and others whose occupation brings them in contact with children one negative culture.

3. If the patient goes to the hospital, isolation for 3 weeks for the non-immune contacts. If the patient stays at home non-immune persons living in the same household with the patient must remain in quarantine for 3 weeks after death or recovery of the patient.

4. Warning signs on houses seven days *if there are no susceptibles in the family.* If there are susceptibles the placard is kept on sixteen days. If on the sixteenth day there are children showing prodromal symptoms of measles the card is not removed.

5. It is recommended that at least 2 negative cultures from both stool and urine be obtained in all cases. Cultures should be taken at least a week apart.

* These same requirements are recommended by the Massachusetts Association of Boards of Health.

Respectfully submitted,

FREDERICK A. WEBSTER, M. D.,
Chairman.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF WENHAM

FOR THE

YEAR ENDING DECEMBER 31, 1931

SALEM, MASS.
NEWCOMB & GAUSS CO., PRINTERS
1932

REPORT OF SCHOOL COMMITTEE

To the Citizens of Wenham:

During the year of 1931 all efforts of the school committee have been pointed towards the improvement of the youth of Wenham through formal training offered in school, at a reasonable cost to the town which furnishes the children and the money. The board has been well supported in this aim, by the superintendent, teachers, and janitor, who have strived to carry out the high standards of achievement which the board has set for the boys and girls whose welfare they are pledged to promote and protect. One and all have been on the alert to find new opportunities for serving the community through the careful administration of the school which demands more time for thought and study than ever before.

Except in rare cases where some member has been out of town on business, the attendance of the board members during the past year has been exceptionally regular.

In April, 1931, it became our turn to entertain the joint Committee of the Superintendency Union, including the towns of Lynnfield, Topsfield, Hamilton and Wenham, and we secured Mr. Henry Pennypacker, Chairman of the Committee on Admissions at Harvard University, as the speaker. The customary dinner was prepared and served by the Domestic Science Department of the Junior High School, affording the pupils practical application of the instruction provided in the Household Arts course; and the committee appreciates the services of the teacher and the members of the Junior High School who assisted her.

A typewriter has been added to the equipment of the

Junior High School, making it possible for the students electing the business course to become somewhat familiar with its use.

For better fire protection to the school building, after several consultations with the fire engineers, it was decided to co-operate in installing a water supply cistern of 20,000-gallon capacity on the school lot.

The board has always been agreeable in permitting the use of the school building and playground for any group of citizens, and this year several groups have availed themselves of this privilege. During the first half of the year the Girl Scouts of Wenham met in the assembly hall. A dancing class, sponsored by the Wenham Village Improvement Society, met Wednesday afternoons after school, and the Boy Scouts were granted permission to use the playground for a Scout rally. The night before the Fourth of July, the grounds were used for a band concert and fireworks.

Tuition is paid to the town for one pupil living near the border line between Danvers and Wenham, whom we transport to the Center School.

It has been deemed advisable to have the first-grade pupils remain in school through the entire session during the winter months, since otherwise, those going home on the bus would be obliged to remain out in the cold on the playground. This is an added burden for the teacher in the already overcrowded room of Grades 1 and 2, but in the interest of the children it seems necessary.

The school committee greatly regrets the passing of Miss Dorothy Keep, the former teacher of Grades 3 and 4. Her pleasing personality, the high quality of her work, and her untiring effort, even during the last few months, when it must have been difficult to carry on, endeared her to the school and community.

It was with great reluctance that the board accepted the resignation of Miss Miriam Sears, teacher of Latin, Algebra, Civics, Dramatics, and Music Appreciation in the Junior High School, when she left to fill a position as teacher of Latin in Beverly High School.

The school sustained another loss when Miss Abbie Cragg, an especially good drawing teacher, resigned to be married.

For Grades 3 and 4 we secured Miss Gladys M. Smith of Methuen, a graduate of the three years' course for elementary teachers, at Lowell State Normal School, at a salary of $1000 a year.

Miss Margaret Seymour of Needham, a graduate of Boston University, specializing in Latin, and having taught at Edgartown, was elected to fill Miss Sears' place, at a salary of $1250.

Miss Frances M. Stockley of Bourne, Massachusetts, was chosen to succeed Miss Cragg, at a salary of $250 a year, teaching drawing one day a week.

We have also added a physical training supervisor, Miss Alice Riley of Stoneham, for one day every two weeks, at a salary of $100 per year.

During periods of economic depression the problem of teachers' salaries assumes a prominent place in the deliberations of a school board, as this is the largest item in any school budget, and the committee has given the subject much consideration. When positions are filled by low-priced teachers it is customary, as in the majority of cities and towns, to grant annual increases until they have reached a salary commensurate with the required standards, but the coming year the committee plans to withhold these increases, except in the case of the three new teachers, whose salaries are very much lower than usually paid. The proposed budget provides for a fifty-dollar increase for the first two, and a ten-dollar raise for the third.

		$28,262 77

In looking over the foregoing figures it will be noted that, at the close of 1931, the school board returned to the town treasury the sum of $1,737.23. There were several reasons why we spent less money than our estimate: reduced salary increases; smaller salaries of teachers engaged during the year; no epidemics requiring extra calls upon the health fund; reduced cost of repairs and supplies; not so many pupils attending high school as registered, with a corresponding reduction in high school tuition and transportation; and postponement of certain repairs until another year. Only such repairs were made as were necessary to keep the building in reasonably good condition.

Regardless of depression and a curtailed budget, the school must go on. The welfare of youth cannot be sacrified for the convenience of the present generation. Our boys and girls must be adequately educated to meet new conditions presented by returning prosperity and reorganization, and to help solve industrial and economic problems, which will be handed down to them. We shall be called on to make progressive experiments, to teach new things, and old things in new and better ways. Education must continue better adapted to the needs of the community, and your committee has endeavored to safeguard the interests of the children, protect the interests of the community by careful expenditures, and at the same time, rise above the abnormal conditions of the present, in anticipating the exacting demands of the future.

MINNIE E. ASHWORTH, *Chairman*
HAROLD A. STURGES, *Secretary*

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Members of the School Committee:

Dear Madam and Sirs:

My ninth annual report on the schools of Wenham is herewith submitted.

Membership and Attendance

At the close of schools in December there were one hundred forty-two pupils enrolled in grades one to nine inclusive. During the school year ending June 30th the per cent of attendance maintained was 92.

High School Pupils

There are now thirty-eight pupils from Wenham attending Beverly High School. Enrollment by classes and courses is as follows:

	Sophomores	*Juniors*	*Seniors*	*Post Graduates*
General Business	1	2	1	
College Preparatory	4	5	5	1
Normal Preparatory	1	3	2	
Practical Arts	2		2	
Commercial			1	
Vocational:				
Auto Mechanics	1		2	
Sheet Metal			2	
Printing	1		1	
Carpentry		1		

One pupil is now enrolled as a senior at the Essex County Agricultural School.

It is expected that eighteen of the above will be graduated next June whereas nineteen will be graduated from our ninth grade and thereby keep our number of secondary school tuition pupils approximately the same.

Several graduates of our junior high school are pursuing courses in private institutions.

Records from Beverly High School and from all other schools doing secondary or advanced school work show that our young people are doing very creditable work.

Teachers

Since publication of the last school report this town has suffered the loss by death of Miss Dorothy Keep of Wilton, Maine. Miss Keep had held the position as teacher of grades three and four but a little over a year when it became necessary for her to be absent from her regular duties. Her strength gradually failed her and she passed away on March third. Although she had served as teacher in our schools a short time she had endeared herself to those with whom she came in contact.

To fill the position as teacher of grades three and four Miss Gladys E. Smith of Methuen was elected and assumed her duties in September. Miss Smith is a graduate of Lowell Normal School in the class of 1931 and came to us highly recommended by the principal, Mr. Clarence Weed.

Miss Miriam Sears of the junior high school resigned in July to accept a position as Latin teacher in the Beverly High School. Miss Sears had, in her short period of service in our school, become very popular with the pupils and parents.

To fill this position Miss Margaret B. Seymour of Needham, a graduate of Boston University, College of Liberal Arts,

was elected. Miss Seymour came to us highly recommended by the professors at the college as well as by the school authorities where she had taught one year.

During the past two months Miss Alice Riley of Stoneham, a graduate of Posse-Nisen School of Physical Training, has been employed one day in two weeks to give physical instruction in the schools.

Miss Abbie U. Cragg, drawing supervisor since 1925, resigned in August to be married. This position was filled by the election of Miss Frances Stockley, a graduate of Massachusetts School of Art, from which institution she was most highly recommended.

It would seem that several positions have been filled during the year but I am pleased to report that all teachers, new to our system, have taken up their duties with the one purpose in mind of carrying on their work as satisfactorily as their predecessor. Coming from different training institutions they have brought many new ideas which they are being given the opportunity to try out.

New Courses

At the opening of schools in September there had been provided for our adoption and use three new courses of study: A course of Study in Art for the Elementary Grades; a course of Study in Physical Education; a course of Study in Home Economics Education.

These courses were prepared under the direction of the State Steering Committee on Curriculum Revision. Sub-committees of instructors, superintendents and specialists in the several fields of work have prepared for the above Steering Committee these courses which are very definitely outlined. General objectives for each course as well as specific objectives for each grade are given as a guide in organizing and putting the course in operation.

Many suggestions and recommendations are made in the several courses for correlating the work of each course with that of other school subjects and outside activities.

Commission Relative to the Regulation of School Buses

At the last session of the General Court a recess commission was appointed to study and report upon the regulation of school buses.

This study and report was necessitated because of the fact that 52,086 children are transported daily and that during the last five years there had been eighty-six bus accidents, with three resulting deaths. At the present time there are no state laws, rules or regulations pertaining to the operation of the vehicles used for transportation of school children. This commission has made thirteen recommendations.

These recommendations have already been used as a basis for checking up the means of transportation provided Wenham pupils attending the Center School, and Beverly High School.

The bus operated by the Eastern Massachusetts Street Railway meets requirements as set forth by the commission in all respects.

The bus operated by Mr. Sidney Prince meets requirements as set forth by the commission in all respects.

Our pupils are most fortunate in having such adequate transportation provided by the town.

School Expenditures

No department in the town requires as great an expenditure as does the school department. Doubtless the question arises in the minds of the taxpayers as to whether or not the school budget cannot be materially cut. I might take the space in this report to explain in detail each item of expense as given in the expenditures of 1931 but I do not think this necessary.

I believe the taxpayers elect to serve on the school commit-

tee three members in whom they have full confidence. Members whose purpose it is to provide the best educational opportunities possible without wasting the taxpayers' money.

I believe there has never been a time when the employees in a school system have realized that there should be less waste and greater results from expenditures than at the present time.

It is my one aim at this period of depression to maintain the highest standard possible in the schools without recommending unnecessary expenditures.

Education as a National Asset

The following excerpt from an address given by Honorable Herbert Hoover, then Secretary of Commerce, before the Department of Superintendence in 1926 seems more applicable in these troublesome times than when given.

"About one-fourth of the whole population of our country is always simultaneously engaged in the same occupation—the job of going to school. It is the largest group in any one employment. To use a term of the Census, it is truly a "gainful occupation." Moreover, as nearly the whole people have worked at it at one time or another, no matter how diverse their later life may become, they all have a common memory of the school yard and the classroom, and they all have a lasting affection for some teacher.

Not three other industries in our country can boast of so large a physical plant as yours. Hundreds of millions are invested in new construction every decade, and still, in commercial slang, you are behind your orders, as witness the unsatisfied demand for seats in the schools of every city in the country. Yours is a big business. And it is big in its responsibilities and bigger in its possibilities than any other business ever undertaken by our countrymen.

No nation in the world's history has so devoutly believed in and so deeply pledged itself to free universal education. In this great experiment America has marched in advance of all other nations. To maintain the moral and spiritual fibre of our people, to sustain the skill required to use the tools which great discoveries in science have given us, to hold our national ideals, we must not fail in the support and constant improvement of our school system.

Both as the cause and the effect the maintenance of our complex civilization now depends upon it. From generation to generation, we hand on our vast material equipment, our knowledge of how to run it, and our stock of intellectual and spiritual ideas. If we were to suppress our educational system for a single generation the equipment would die of starvation, and intellectually and spiritually we should slip back four thousand years in human progress. We could recover the loss of any other big business in a few years—but not this one. And unless our educational system keeps pace with the growth of our material equipment we will slip also."

The above places before us, as citizens of our town, a challenge. Future generations will be able to judge as to whether we met it wholly or only in part. To meet the challenge requires the united effort of all worthy of our American citizenship.

In conclusion may I say that I appreciate the privilege of serving in the schools that the boys and girls may through our united efforts profit from educational opportunities provided.

Respectfully submitted,

J. D. WHITTIER,

Superintendent of Schools.

REPORT OF THE PRINCIPAL

To the Superintendent of Schools,

Dear Sir:

I herewith submit my ninth annual report of the Wenham Center School.

The personnel of our faculty has again met with several changes. The newly elected teachers, however, through their interest and cooperation have proved that they, as well as the other members of the teaching force, are working for the betterment of our school.

The club work of the Junior High is still carried on with success. The Debating Club, which has been in existence for nearly ten years, continues to be popular. Under the supervision of Miss Bullis a debate is prepared and given twice monthly.

The work of the Dramatic Club, with Mrs. Joslin and Miss Seymour as directors, has been evident to all who have witnessed the plays given by the pupils at various intervals during the year.

The Radio Club, which was revived this fall, is being conducted by Mr. Smart.

The boys who formed a cooking club for the purpose of obtaining Scout merit badges in camp cooking have proved to be earnest workers.

"American diplomats" was the subject selected by Hon. Elbridge R. Anderson for the annual history contest. In spite of the fact that we were proud of our speakers, Nellie Bixby, Ruth Cogswell, Frederick Cross, Austin Campbell, and Delmont Tillotson, we lost the cup to Hamilton.

Last winter the children of the three upper grades were

again given the opportunity to learn the proper use of a public library and its equipment. The course, conducted by Mrs. Edna F. Hurlburt of Beverly, was of real practical value.

Throughout the state it is now customary, as the climax of the year's health work, to observe Health Day. In our school the date set apart for such an observance was May fifteenth. It was gratifying to see the number of children to whom tags could be awarded for proper weight, care of teeth and improvement in posture. Yet, the pupils whose teeth still needed attention were, it seems to me, too many. I, with you, realize how easy it is to put off and neglect dental work, and also the expense of it, but may I, as a friend of the children, remind you, their parents, of the importance of good teeth. Not of little significance is the value of well-kept teeth to their personal appearance as they grow older, but of their need to their physical well-being much can be said. I trust that I may not be considered over-anxious when I ask for your cooperation in helping the children of Wenham to keep their teeth in good condition.

The work of the Domestic Art Department was continued last year in much the same manner as in previous years. The projects were carefully selected according to their adaptability to the age and grade of the girls, and the results accomplished were of a high standard.

Aside from their individual projects, many of which were on exhibit in June, the boys of the Manual Training Department made the large screens now in use in our cooking room. These, with the other articles displayed, were a credit to both teacher and pupils.

The fact that so many of the boys take printing as an elective in the ninth year gives proof that interest in that subject is carried over from the eighth grade. In addition to

the textbook study and printing of the "Breeze," the boys have done considerable work for the school department, such as graph cards, requisition and admittance blanks.

May I, at this time, thank the teachers, school officials and parents for their loyal support and cooperation.

Respectfully submitted,

BESSIE M. BUKER,
Principal.

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools,

Dear Sir:

I herewith submit my seventh annual report as school nurse for the town of Wenham.

General Work

The general work consists of weekly visits to schools, general inspection, home visits, clinics, clerical work, hospital trips, first aid and simple dressings, eye and ear examinations, weighing, measuring, and necessary follow-up work.

Follow-up work means checking up cases with physical defects or those being suspicious of contagious or communicable diseases.

All health work carried on in the schools is done with the one thought in mind:— To help the individual child to become a physically fit citizen.

Contagious diseases have been limited to the following:

Whooping cough	6	Ivy Poison	3

The Health Day Program was carried out during May as in previous years. The Physically Fit Tag only being awarded to children having normal weight, good posture, and all physical defects corrected. Tags were awarded as follows:

Teeth	59	Weight	128
Posture	83	Improvement	35
Physically Fit Tags	39		

Many children failed to receive the Physically Fit Tag because they did not have their teeth attended to as recommended.

Physical Examination

The following is the result of the examinations given by Dr. John G. Corcoran, School Physician. These results are for both pre-school examination and general examination of all attending school in September.

Defective tonsils	4
Defective posture	36
Defective heart	1
Swollen glands	10

Ear Examination

We were very fortunate in securing an audiophone for accurate testing of ears. All those found defective were retested. The number found after retest were 9. Taking the history of those found with defective hearing I found that these had all had treatment from a physician or that the defect was the result of a chronic condition such as cracked ear drums or mastoid operation.

Eye Examination

Number found defective 5

One is incurable. Two wear glasses and the other two are now being given necessary attention.

Corrective Work

Seven tonsil cases have had necessary treatment. Fifty-seven pupils have had teeth cared for. Three pupils have had necessary treatment to remedy eye defects.

Tubercular Clinic

This clinic has been held once a year since 1928. All cases found suspicious have been discharged as cured with but two exceptions. One has been recommended for sanatorium treatment and the other for X-ray and re-examination next year. These cases are being followed up very closely.

Immunization

In 1928 immunization against diphtheria was first started in our school. Since then one hundred forty-two children have been immunized. The number not allowed to be immunized by parents is decreasing yearly and hopes are maintained that eventually every child in Wenham will be enrolled in the immunized group.

During the year eighty-eight home calls, sixty-nine dressings, and twenty-five hospital trips have been made.

In closing I wish to thank the superintendent, school committee, teachers, parents, and pupils for their kindly cooperation in maintaining the health program in the school.

Respectfully submitted,

FLORENCE L. STOBBART, R. N.,

School Nurse.

CLASS ODE

Oh! Classmates, one and all,
Oh! Friends, so dear and true;
We go our many ways
Our work to do;
We find it hard to leave
The scenes we loved so well,
But we must e ver go
Onward and Upward!

Refrain

Farewell we all must say,
Dear classmates, here today,
But we must ever go
Onward and Upward!

Our school days here will be
Pleasant in memory;
We leave here with regret,
And we shall ne'er forget,
All that our teachers dear
Have meant throughout the year;
Striving to have us press
Onward and Upward!

Now to the Junior High
We all must say good-bye,
And as we part from thee
Let thy good guidance
Follow us on through life,
Helping us win the strife,
But we must ever go
Onward and Upward!

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

To the Citizens of Wenham:

The Trustees of Wenham Public Library are pleased to commend the work of the librarian, Mrs. Frank Burton, and her assistant, Miss Eleanor Trowt, in making the library one of the busiest and brightest spots within our town. They have succeeded, by various devices, in bringing the new books to the attention of the patrons, and have served them in a manner both prompt and courteous.

The library has been made more attractive and comfortable for the smaller children by giving them a corner furnished with table and chairs fitted to their special needs. The "Children's Hour" so successfully conducted by Miss Helen Aylward, is again one of the attractions each Saturday afternoon through the winter months.

The course of eight lessons on "Use of Library" given to the pupils of the Center School last winter by Mrs. Edna Hurlburt, from the Beverly Public Library, was of much value. To make it possible for the children to get the full benefit of these lessons, the library has added to its list of children's books a number recommended by Mrs. Hurlburt.

An interesting item from the librarian's report is the large increase in volumes lent, over last year. One of the reasons for this is undoubtedly the increased number of leisure hours, caused by unemployment, and it makes one realize the value of a public library as a means for profitable use of leisure. The report also shows that over one half of the population of our town are registered as readers at the library and take advantage of the opportunity for pleasant as well as profitable

reading afforded them. It is also interesting to note that more than 25% of the volumes lent, were to children, and nearly as many were non-fiction.

The library has received a number of gift books the past year for which the trustees acknowledge their appreciation.

We refer you to the appended report of the librarian for a more detailed account of the year's work.

REPORT OF FIRE DEPARTMENT

To the Honorable Board of Selectmen,

GENTLEMEN:

The Board of Engineers respectfully submit the following report.

The Department has answered a total of 42 alarms: Buildings 4, Woods 8, Chimneys 3, Automobiles 2, Stills 5, Grass 20.

The Engineers have had the two cisterns on the Car Barn lot repaired and filled and they are ready for use in case we need them.

This year the Beverly Water Board have extended their water main through Hull Street to Hart Street, giving us the use of three hydrants.

We have been unable this year to buy any new hose so we are asking for an appropriation large enough to buy some this year.

The following is the property of the Fire Department:

1 combination pumper	1 keg of soda
1 combination chemical	4 gals, sulphuric acid
4 axes	12 rubber coats
2 crow bars	10 prs. rubber boots
3 fire hooks	2300 ft. fire hose
1 stone hammer	12 galvanized pails
1 30-ft. extension ladder	1 roll top desk
1 35-ft. extension ladder	1 hose expander
2 16 ft. roof ladders	300 ft. $1\frac{1}{2}$-in. hose
4 shovels	1 diaphone whistle
3 foamite tanks	5 electric lanterns
4 hats	1 battery charger

17 cisterns: One on Walnut Street, near Hale Estate; one on Maple Street, near Burley Street; one at West End chapel; one at junction of Cedar Street; one on Porter Street, opposite Perkins Street; one on Larch Row, near H. A. Prince house; one on Larch Row, near the W. P. Dodge Estate; one near the house of Fred Batchelder, Main Street; one near the house of Frank Tarr, Main Street; one opposite the Town Hall, Main Street; one at the junction of Main Street and Larch Row; one near the Pingree house, Main Street; one near the junction of Grapevine Road and Hull Street; two on the Car Barn lot; one near the James H. Perkins house, Main Street; one on Arbor Street, near School Street; one on School Street, near Schoolhouse.

24 chemicals located as follows:

2 at Addison Williams' house, Hull Street.
2 at Town Hall.
1 at Harry Pulsifer's.
2 at H. E. Durgin's house.
5 at Center Schoolhouse.
11 at Engine House.

Respectfully submitted,

IN MEMORIAM

Horace E. Durgin was born in Wenham December 4, 1863 and died in Wenham August 6, 1932. He was elected Moderator of the town meeting for the first time on March 6, 1899, and was elected Treasurer of the town for the first time on March 5, 1900. He served continuously in both offices until the day of his death.

To thus serve one's fellow citizens for over three decades or a generation is a tribute in itself. For what better evidence do we need that the people whom he served placed confidence in his character by trusting to him their affairs.

He was intensely interested in all town matters and his duties as moderator often called for his time very early in the morning and on occasions it would be very late at night when he called the town's work done.

He was respected in life and honored in death; his home was filled to overflowing on that day when his friends and acquaintances met to pay their final tribute to his memory.

SELECTMEN'S REPORT

The year of 1932 has had its problems, although not so hard to solve as those of larger towns and manufacturing centers.

The town has been very generous in its appropriations for highway work, $15,000.00 having been appropriated in March, and at a Special Town Meeting in September an additional amount of $2,000.00.

Probably never in the history of the town has so much been appropriated for regular highway work.

On account of the generous amounts available from department appropriations, it has not been necessary to place any of our own citizens on the Public Welfare list.

And we must also pay tribute to those who in former years have looked into the future and seen that there would always be some who would need a helping hand.

Not in the memory of the writer have so many people had the rugged road smoothed a little by the income of these trust funds which they established, as now.

During the year the special work of rebuilding Porter Street from the Hamilton line has been extended to Perkins Street.

At the corner of Porter and Arbor Streets, arrangements have been made with Mr. Everett W. Sears so that the high bank which was a great obstruction to the view at that point has been removed.

The fill at Strait's Hollow which has been in process for several years has been completed and meets with general approval. Lake Avenue has been rebuilt with a substantial gravel foundation and a gravel foundation has been put in for the purpose of widening a part of Cherry Street at the Main Street end.

The resurfacing of Walnut Road has been extended to the

top of the hill near the entrance to the estate of Frederick Ayer.

Permanent sidewalk has been continued on Main Street to Arbor Street and sections on Arbor Street, School Street and Monument Street have been treated with the same kind of construction.

Curbstones have been installed at three different points on Main Street, namely, between Cherry and Monument Streets, at the Proctor Estate and near the residence of Charles E. Woodman.

A new guard rail has been constructed on Grapevine Road, near Thompson's Corner. These improvements added to the regular upkeep have helped to make our highways attractive and safe.

We wish to express our appreciation of the cooperation which the citizens have granted us in our efforts to serve them.

ELMER E. CLARKE,
ARTHUR D. PRINCE,
SAMEUL S. CONARY,

Selectmen of Wenham.

AUDITOR'S REPORT

Wenham, Mass.

The accounts of all officers of this town intrusted with the receipt, custody or expenditure of money have been examined and the cash balance December 31, 1932, has been verified by actual count and by reconciliation of bank balances.

W. ARTHUR TROWT,

Auditor.

February 8, 1933.

Essex, ss. February 8, 1933

Then personally appeared W. Arthur Trowt and made oath that the foregoing statement is correct.

ARTHUR D. PRINCE,

Justice of the Peace.

REPORT OF THE BOARD OF HEALTH OF THE TOWN OF WENHAM

1932-1933

To the Board of Selectmen,

Gentlemen: The Board of Health organized for 1932 with the election of Mr. Frank H. Tarr as agent, Mr. William Cummings as secretary, and Dr. Frederick A. Webster as chairman. Mr. John P. Daley was again elected as milk inspector.

Early in the year, our board received from the School Committee the report of their examining dentist that set forth the fact that many of the school children were badly in need of dental attention. At a joint meeting of the School Committee and the Board of Health we went over the matter carefully. It appears that the responsibility for this dental work, for which there is an increasing necessity, falls upon the Board of Health. However, to establish a dental clinic similar to those in other nearby places would require an outlay of several hundred dollars. Since our board is without appropriation, we felt that we should not go ahead with such a proposition unless authorized to do so by the town.

There have been but four cases of contagious diseases reported to the board. A thorough investigation of these cases was made and we concluded that they did not come from contamination of our milk supply. We feel that the rigid standard of milk inspection which Wenham employs is responsible for the low percentage of contagious disease that we have had during the past year.

Herewith is the report of the milk inspector:

January 16, 1933.

Adults, no restrictions save for food handlers who cannot continue any work requiring food handling, without permission from the local Board of Health; Immune Children, no restrictions. Placard—No.

Septic Sore Throat—Quarantine, during the clinical course of the disease and convalescence, complete exclusion of the patient from participation in the production or handling of milk or milk products until permission is granted by local Board of Health. Contacts: Adults, during the clinical course of the disease and convalescence, all contacts to be excluded from participating in the production or handling of milk or milk products until permission is granted by the local Board of Health.

NOTES

1. School teachers should have same restrictions as school children. Food handlers and others whose occupation brings them in contact with children have no restrictions if they live away from home.

2. School teachers must have 2 successive negative cultures taken 24 hours apart; food handlers and others whose occupation brings them in contact with children one negative culture.

3. If the patient goes to the hospital, isolation for 3 weeks for the non-immune contacts. If the patient stays at home non-immune persons living in the same household with the patient must remain in quarantine for 3 weeks after death or recovery of the patient.

4. Warning signs on house seven days *if there are no susceptibles in the family.* If there are susceptibles the placard is kept on sixteen days. If on the 16th day there are children showing prodromal symptoms of measles the card is not removed.

5. It is recommended that at least 2 negative cultures from both stool and urine be obtained in all cases. Cultures should be taken at least a week apart.

* These same requirements are recommended by the Massachusetts Association of Boards of Health.

Respectfully submitted,

FREDERICK A. WEBSTER,
WILLIAM I. CUMMINGS,
FRANK H. TARR.

REPORT OF PARK COMMISSION

To the Citizens of the Town of Wenham:

The work for 1932:—

Soldiers' Monument, Peters' Monument, Mounds.

At Soldiers' Monument removed two chestnut trees that were in bad condition.

At Pingree Park have all posts set for fence at upper end on Porter Street.

At Car Barn Lot have plowed, put on 40 loads loam, and seeded down to grass.

Respectfully submitted,

JACOB D. BARNES,
Chairman.

REPORT OF THE MEMORIAL TABLET COMMITTEE

At the Annual Town Meeting held March 7, 1932, the Town voted an appropriation of five hundred dollars for the purpose of erecting a bronze Memorial Tablet, listing the names of the men of Wenham who served in the World War. The Moderator was directed to appoint a committee to have charge of this. The committee so instituted consists of: Raymond K. Tarr, Roger E. Knowlton, Bertha M. Perkins, Dorothy M. Conary and Roscoe B. Batchelder. The committee organized shortly with Mr. Tarr as chairman and Mrs. Perkins clerk. Several further meetings were held during the year; a preliminary design was obtained and corrected; bids were received and the contract awarded to the Gorham Company of Providence. It is hoped to have the Tablet in place before the 1933 Town Meeting.

For the Committee,
RAYMOND K. TARR.

DIVISION OF ACCOUNTS

REPORT OF AN AUDIT

OF

THE ACCOUNTS

OF THE

TOWN OF WENHAM

FOR THE PERIOD FROM NOVEMBER 17, 1929, TO JULY 18, 1932

Made in Accordance with the Provisions of
Chapter 44, General Laws

November 17, 1932

The Commonwealth of Massachusetts
Department of Corporations and Taxation
Division of Accounts

State House, Boston

November 17, 1932

To the Board of Selectmen

Mr. Elmer E. Clarke, *Chairman*
Wenham, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Wenham for the period from November 17, 1929, to July 18, 1932, made in accordance with the provisions of Chapter 44 of the General Laws. This is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Vey truly yours,

THEODORE N. WADDELL

TNW:GY

Director of Accounts

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Wenham for the period from November 17, 1929, the date of the previous audit, to July 18, 1932, and submit the following report thereon:

The records of the financial transactions of the several departments were examined, and the reported payments to the treasurer were checked with the treasurer's books.

The surety bonds furnished by the departmental officials for the faithful performance of their duties were examined and found to be in proper form.

The selectmen's book of appropriations was examined and a comparison was made with the appropriations voted by the town, as recorded by the town clerk, the reported payments on the appropriation accounts being checked to the selectmen's orders and with the treasurer's cash book.

The books and accounts of the town treasurer were examined and checked in detail. The cash book was footed, the receipts as recorded on the cash book were checked with the records in the departments collecting money for the town and with other sources from which money was paid into the town treasury. The recorded payments were compared with the cancelled checks on file and with the selectmen's orders authorizing the treasurer to disburse town funds, the payments without orders being found to be proper disbursements.

The cash on hand was verified by an actual count, the bank balances, as shown by the stubs of the check books, were proved

for the period of the audit and were reconciled with statements furnished by the banks, the necessary adjustments being made. A cash variation of $513.79 was disclosed but was adjusted before the close of the audit.

The investments of the trust funds in the custody of the town treasurer were examined and listed, the income and expenditures being verified and found to be correct.

The cash on hand and in banks, together with the savings bank books representing the investments of the several trust funds, were transferred to the new town treasurer as of August 6, 1932.

The books and accounts of the tax collector were examined and checked. In order to determine the amount of collections due the treasurer, it was necessary to check in detail the receipts as recorded on the collector's cash books with the commitment books and enter numerous collections in the cash books which had been omitted therefrom. The payments to the treasurer were checked with the treasurer's books, the abatements were checked with the records of abatements granted by the assessors, and the outstanding accounts were listed and proved.

Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the outstanding accounts, as listed, are correct.

It is recommended that all collections be entered in the cash books, as required by Section 7, Chapter 60, General Laws.

The records of sporting and dog licenses issued by the town clerk were examined, and the payments to the State and the county, respectively, were verified by the receipts on file.

The records of receipts from selectmen's licenses, from the sealer of weights and measures, and from the library and ceme-

tery departments were examined, the payments to the treasurer being checked to the treasurer's books.

A balance sheet, showing the financial condition of the town on July 18, 1932, is appended to this report. From this balance sheet, it will be noted that the town has a reserve fund from overlay surplus of $10,383.50, from which account no direct expenditures may be made; the fund must be held subject to appropriation by the town for extraordinary or unforeseen expenses, as required by Section 25, Chapter 59, General Laws.

There are also appended to this report tables showing a reconciliation of the treasurer's cash and summaries of the tax accounts and the trust fund transactions.

During the process of the audit, uniform courtesy was extended by the several officials, and I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDW. H. FENTON

Chief Accountant.

Forty-eighth Annual Report

OF THE

Trustees of the Public Library

OF THE

Town of Wenham, Mass.

FOR THE

YEAR ENDING DECEMBER 31, 1932

SALEM, MASS.
NEWCOMB & GAUSS CO., PRINTERS
1933

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

To the Citizens of Wenham:

In these times of depression and unemployment, of increased tax burdens and reduced incomes, the one thought in every mind is to reduce expenses. This is as it should be, particularly in reference to administering public funds. It is very important, however, to plan the budget of expenditures so as to serve the best interests of the community.

The library trustees believe that a well-equipped library providing a clean, wholesome source of recreation and profitable employment, for the greatly increased hours of leisure which the depression has forced upon the citizens of our town, has a value to the community far greater than the amount of money required to maintain the same.

It is very gratifying to the trustees to note and report the increasing use of our Public Library as indicated by the 679 more volumes lent, and the increase in registration of 76 readers.

The work of the Librarian, Mrs. Frank Burton, and her able assistant, Miss Eleanor Trowt, has been of its usual high order, in spite of increased demands, and they have succeeded in bringing the new books to the attention of the readers by attractive and conspicuous display.

Last year's popularity of Miss Helen Aylward and her "Story Hour" was shown again throughout the winter months by taxing the capacity of the Library, and as an extra treat for the last "Story Hour" she put on her marionette show, which proved to be a most enjoyable time for those children fortunate enough to attend that Hour.

Co-operating with the Public Schools, to increase the use of books for home reading, for which certificates are given to all school pupils having read ten or more books from an approved list, the Public Library issued to each pupil a printed "Book Mark" list for each grade, published by the American Library Association.

For the convenience of those citizens who use the Public Library, we have this year printed, in leaflet form, the title and author of all new books added to the library. The custom heretofore, has been to publish the list of new books for the year in the Town Report.

The trustees believe that a list printed, for each one hundred books, would serve the reading public better than the Town Report list, so we plan to continue the printed lists to replace that list usually printed in the Town Report.

The trustees have spent $59.00 less for books this year than the year previous, yet the total number of volumes added to the library is 87 more than last year. This was made possible by buying some of the new books from the Lending Library of the Wenham Exchange which cost us much less than list price.

The Trustees wish to acknowledge the receipt of a number of gift books added to the library this past year.

For a more detailed account of the year's work we refer you to the Librarian's report appended.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF WENHAM

FOR THE

YEAR ENDING DECEMBER 31, 1932

SALEM, MASS.
NEWCOMB & GAUSS CO., PRINTERS
1933

REPORT OF SCHOOL COMMITTEE

To the Citizens of Wenham:

The year 1932 was not a particularly eventful one in the history of the town, in matters pertaining to Education.

We have had approximately the same number of pupils in our Center School and at Beverly High School as in previous years.

At the Center School, the number of pupils in the first and second grade room, and in the third and fourth grade room, made it extremely desirable, during this school year, to increase the teaching facilities for the first four grades. In October, Miss Phyllis B. Specht was secured to teach the pupils in the second grade and the pupils in part of the third grade. This has made it possible for Miss Gove to devote her entire attention to the children in the first grade and to afford opportunities for a good start to the little ones beginning their school days.

Miss Smith, being relieved of part of the third grade, has had more time to devote to the fourth grade pupils, and made more rapid progress possible for the children in her room. The additional teacher has made it possible for the children needing more individual instruction to receive it, and we believe that the help obtained in their school work by this arrangement will be found to be of great and lasting benefit to many pupils.

Mr. Afton Bezanson of Marblehead, who had served six years at Hamilton, was elected to teach Manual Training, to succeed Mr. Perry Smart, who left in June. Mr. Bezanson took hold of his new duties in a manner to meet with general approval.

The physical training work, started during the previous school year, has been continued under the supervision of Miss Alice Riley of Stoneham, who comes to Wenham for one day every two weeks.

Matters at the Center School have run as smoothly as usual, due to the competency of the Principal, Miss Buker and her associates, and the committee wishes to express its appreciation of the faithful services of the superintendent of schools, principal, teachers, and janitor during the year.

The School Committee was pleased to have our Junior High School Team win the cup in the Anderson prize-speaking contest held in April at our Town Hall.

The annual meeting of the Superintendency Union, comprised of the towns of Hamilton, Lynnfield, Topsfield and Wenham was held at the new Hamilton High School building on April 30th, 1932 and the committee members were afforded an opportunity to inspect the new building. Mr. John D. Whittier was reelected to serve as Superintendent of Schools for the three-year term beginning July 1, 1932.

School Repairs.

The Town appropriated a total of $1425 for repairs to the school. Of this amount $1365 was expended, so that we were able to turn back to the Town Treasury $60 of this part of the appropriation.

The areaway about the school has been entirely resurfaced and is now smooth and hard and should stand for years.

In 1931 one half of the school roof was surrounded with a snow guard to replace the old stops which had very largely rusted away. This year a snow guard was installed on the remaining part.

The interior of the school has now been almost entirely repainted and refinished. All of the hallways and most of the

rooms not painted last year have received new coats of paint and varnish and the color of the walls has been made lighter, so that the school has a very light and bright appearance.

The obsolete toilets in the girls' basement, requiring more or less frequent repairing, have been replaced with modern vitriolithic open plumbing. As the cement floors and wooden partitions had to be removed to permit replacing these toilets, advantage was taken of this to install, at the same time, two shower baths for the use of either girls or boys after they had engaged in sports or athletics.

Hot water for the school has been supplied from a tank heated by gas in the lunch room. This tank has been moved into the boiler room and an additional tank installed, heated by a coal heater burning the same coal as is used in the school heating plant. This change should produce a material saving in our gas bill.

Financial Matters for 1932.

The town meeting held March 7, 1932 appropriated $29,000, and the expenditures totalled $28,530.08, leaving an unexpended balance of $469.92.

During the year the state reimbursed the town as follows:

Superintendent's Salary	$386 67
Transportation of High School Pupils	800 80
Allowance for Trained and Experienced Teachers	1,510 00
Vocational Education	753 75
Total	$3,451 22

The Town also received tuition from the town of Danvers for one pupil living in Danvers near the town boundary line.

A detailed statement of the expenditures follows:

1932—EXPENDITURES

General Expense:	
School Committee	
Superintendent's Salary	$880 00

Outlay:	
New Equipment	184 66
Other Payments—Insurance	413 55
	$28,530 08

The School Committee submitted to the Finance Committee the following budget for 1933.

WENHAM SCHOOL DEPARTMENT

Budget 1933

General Expense:	
School Committee	
Superintendent's Salary	$880 00
Other Expenses	340 00
Expense of Instruction:

Transportation (Vocational)	200 00
Outlay:	
New Equipment	100 00
Insurance	475 00
	$28,495 00

In preparing the Budget the Committee had several meetings and bore constantly in mind the need of reducing the expenses as much as possible. The above budget is less than the 1932 appropriation and 1932 expenditures.

By the passage of Chapter 271, Acts of 1932, the Legislature increased the standards prescribed for school busses. Frequent inspections now have to be made by inspectors of the Registry of Motor Vehicles. Liability insurance to the amount of $50,000 has to be carried. An increase in the number of pupils in the outlying districts and the state requirement regarding seating accommodations made it necessary to secure a larger bus. In accordance with the provisions of the statutes, the Committee made a three-year contract with Sydney K. Prince to transport our pupils. The responsibility is great to see that scholars are safely transported to and from school, and the Committee believes the school and the parents are fortunate in having a man of Mr. Prince's successful experience to whom to entrust this important matter. Due to the increased charges because of the new bus and to larger insurance premiums, the annual cost of school transportation shows an increase over that in previous years.

The Committee wishes to express its thanks to the parents and citizens for their support and cooperation during the past year.

It is estimated there will be approximately the same enrollment in the grades next year with a possible increase of two in attendance at high school.

Teachers

Mr. Perry Smart terminated his services at the close of school in June. The vacancy was filled by the election of Mr. Afton Bezanson.

Miss Phyllis Specht was added to the force about November 1st that it might be possible to divide the work of teachers of first four grades, thereby giving special attention to pupils not maintaining satisfactory marks.

High School

An examination of marks received by our tuition pupils at Beverly High School discloses the fact that two pupils received first honors and three pupils received second honors during the first ranking period of this school year. Six subject failures were recorded against five pupils. As a whole ranks received by the pupils show that most are doing fair work while a few are outstanding. Those who received high marks in our local school have continued to do so in high school. Others have received all they deserved according to effort expended.

Courses of Study

At the opening of schools in September new courses of study for grades 1-3 in Arithmetic and 1-6 in Hygiene were given to the teachers that the work of the several grades should be based upon work as outlined in the same.

Standard Tests

That it might be possible to determine the strong or weak points pertaining to instruction in subject matter in our system a battery of tests was given in grades four to nine during November and December. The tests — "The New Stanford Achievement Test Form W" — were based upon Paragraph Meaning, Word Meaning, Spelling, Language Usage, Literature, History and Civics, Geography, Physiology, Arithmetic Reasoning and Arithmetic Computation. That a comparison may be made, there is given below the median as determined by the author, the median for all towns under my supervision, and the median for Wenham.

Medians

	Author's	*Towns under my supervision*	*Wenham*
Grade 4	50	49	43
Grade 5	65	65	64
Grade 6	76	80	70
Grade 7	84	85	86
Grade 8	92	97	89
Grade 9	98	103	99

A variance of three points above or below an author's standard for a small group examined is not considered of vital importance. In two grades the median score was below what it should be while the other grades of our school were in the passing group. During the remainder of the year efforts will be made to improve the work of grades or individuals falling below the standard median.

In closing I wish to express appreciation of the interest and support of the school program for our boys and girls by the committee members, teachers and school patrons.

Respectfully submitted,

J. D. WHITTIER

REPORT OF THE PRINCIPAL

To the Superintendent of Schools,

Dear Sir:

I herewith submit my tenth annual report of the Wenham Center School.

With one exception our school opened in September with the same teaching force as that of last year. Mr. Afton Bezanson of Marblehead joined us as instructor of Manual Arts and Printing. Later, on October twenty-fourth, our superintendent and school committee deemed it wise to open another room. Miss Phyllis Specht was appointed to teach the second grade and part of the third. I have found these new teachers, along with the other members of the staff, always willing to cooperate and work for the welfare of the children.

From daily observations one cannot help but notice the benefits derived through the addition of an extra teacher. With all of Miss Gove's time now given to the first grade pupils, they have, of course, made more rapid progress. In the second and third grades too, smaller groups have made possible more individual attention, and the results obtained have been gratifying.

In the Junior High School, in addition to the Handicraft, Debating and Dramatic clubs which have been popular with the pupils for several years, a Boat Club has been organized under the direction of Mr. Bezanson. The boys, who meet once in two weeks, plan to complete a model of a schooner yacht, before June.

The girls of the Junior Red Cross Club have enjoyed making small articles, which they hope may carry a bit of cheer to those less fortunate than they.

Although, during the past years, the teachers have tried to work out a worth-while physical education program, they greatly appreciate the guidance of one trained in that line. Miss Alice Riley now spends two days each month in our building. Some of the results obtained by the teachers under her supervision were seen at our exhibition last June. We feel that improvement is still being made along the lines of posture, rhythm, team work and the like.

The course in Clothing terminated last year in a style show, held on June third. The garments modeled had been made by the girls during their regular classroom periods. By serving afternoon tea to our guests, the girls of the Foods class showed to a small degree what they are taught in that subject.

As far as possible, Mr. Bezanson has tried to make the selection of projects in the Manual Arts department, such that they will be useful and consistent with the best design. The work of the fifth and sixth grades is simply toward the coordination necessary for the development of skill. The seventh grade boys are making simple joints, and projects involving straight line work. The boys of grade eight, after consulting with their parents, are given opportunity to select projects in which they are interested. Most of these necessitate the use of mortise and tenon joints. The greatest freedom in the selection of projects is given to the boys of the ninth grade. Major pieces of furniture are being constructed by them along early American lines.

Our school last year was again privileged to participate in the American history contest, sponsored by Hon. Elbridge Anderson. The subjects had to do with the departments of the United States government. The participants from Wenham in the final contest, held on April fourteenth, were Arleen Chamberlain, Vera Christofferson, Ruth Cogswell, Charles

Davis and Carlton Dodge. These pupils did credit to their school and were pleased to be the winners of the cup.

In order to prepare our pupils for a high school course, a certain amount of home work is necessary in Junior High, particularly in the ninth grade. May I ask the cooperation of the parents in arranging a proper time and place in the child's daily schedule, for home study? With the many diversions of the present day the child often fails to concentrate sufficiently on an assignment to master it. This not only interferes with his accomplishment, but also tends to form poor habits of study which will be continued, perhaps throughout his school life.

I wish at this time to thank the parents for the many ways in which their cooperation is shown, the teachers for their loyalty, and the superintendent and school committee for their support.

Respectfully submitted,

BESSIE M. BUKER

Principal.

CLASS ODE

The parting day is here,
  And we must bid adieu
To all our friends and teachers,
  Whom we have loved so true.
At Wenham Junior High
  We leave a memory;
'Twas here we learned our motto,
  "Onward to Victory."

And now that we are leaving
  Our comrades here to-day,
We wish to say we've loved them
  In all our work and play.
We may not meet again,
  Each one we may not see,
And so we leave our slogan,
  "Onward to Victory."

Today and from now on,
  Our paths may lead astray,
But we must live our motto,
  And strive for it each day,
It is the only way,
  Good citizens to be,
And, therefore, we must follow
  "Onward to Victory."

Tune: Aurelia (The Church's One Foundation)

REPORT OF THE PARK COMMISSION

To the Citizens of the Town of Wenham.

The Work for 1933. — Under the existing conditions this year we asked for a smaller amount of money to work with.

Soldiers' Monument, Peters' Monument, Mounds, Pingree Park, Car Barn Lot. — At the Soldiers' Monument we seeded and fertilized, which has to be done each year owing to the shade; also two lengths of fence were broken up badly in an automobile accident, but the parties concerned were very nice and paid the damages. The balance of the work was regular upkeep.

Respectfully submitted,

JACOB D. BARNES,

Chairman Park Commission.

ARTICLE THIRTEEN

"REPORT OF COMMITTEE ON WATER SUPPLY"

Voted—That the report as read by the Chairman, Elmer E. Clarke, be accepted.

Below is a copy of said report:

Wenham, Mass., March 6, 1933.

The committee of three appointed by the Moderator as per vote passed under Article 14 at the Annual Town Meeting held March 7th, 1932, beg to report as follows:—

The Committee organized with

Elmer E. Clarke, *Chairman*
Horace A. Killam, *Vice-Chairman*
Lester E. Libby, *Secretary*

The Eastern States Engineering Company were consulted. They sent their representatives to investigate and decided they were not interested.

Mr. Crafts, representing the T. Russell Robinson Engineering Corporation, met the joint committee of Wenham and Hamilton and later investigated the matter and submitted a tentative proposition and plan which called for 36 hydrants provided, carried to and including a portion of Cherry Street and 43 if continued south to Lake Avenue, at $110.00 per hydrant, and also required that 80 per cent of the owners of houses in the territory served by hydrants shall take water for domestic purposes at a minimum of $35.00 per year. The hydrants were located, 4 on Walnut Road, 4 on Porter Street, 5 on Arbor Street, 1 on Perkins Street, 1 on School Street, 2 on Friend Court, 3 on Monument Street, 4 on Cherry Street, 1 on Cedar Street, 11 on Main Street to Cherry, and 7 more if carried to Lake Avenue.

A hearing was held at the Town Hall, February 3rd, 1933,

and 48 were present. Mr. Clarke outlined the matter roughly and then called upon Mr. Crafts to more fully explain. Several spoke, including Mr. John F. A. Davis, Mr. Samuel Conary, Mr. Arthur D. Prince, and no speaker appeared to favor the matter.

Mr. Prince, an Assessor, estimated that the Hydrant Service, if borne by the whole Town, would increase the tax rate about $1.25 per thousand, and if borne by the property in the district covered by hydrants, it would increase their tax rate between six and seven dollars per thousand.

All who favored the proposition were requested to signify it and no one appeared in favor and all signified opposition.

Then all who felt disposed to take water, if and when installed, for domestic purposes, were requested to signify it, and no one responded.

The hearing was then adjourned.

Mr. Crafts later announced that he would no longer be interested.

At a meeting of your committee held February 16, 1933, after careful consideration of the many angles in the proposition, and fully realizing that a very material insurance reduction would come to those in the protected districts, unanimously recommended that further consideration of installing a water supply be postponed, but that every possible effort be made to prevent the further taking by cities and other towns of the very little water remaining at our disposal within our borders and to retain as far as reasonably practical the waters of such watersheds as remain at our disposal, until such time as said waters may be needed for our own use.

Elmer E. Clarke
Horace A. Killam
Lester E. Libby
Committee.

ARTICLE FOURTEEN

"MISCELLANEOUS"

A rising vote of thanks was tendered the Wenham Village Improvement Society for the bountiful dinner so generously provided.

Voted—That this meeting be dissolved.

ROSCOE B. BATCHELDER,

Town Clerk.

SPECIAL TOWN MEETING

July 10, 1933

ARTICLE ONE

"RESCINDING ACTION TAKEN UNDER ARTICLE ELEVEN AT THE ANNUAL TOWN MEETING"

Voted—That all action taken under Article Eleven of the warrant for the Annual Town Meeting held March 6th, 1933, be rescinded.

ARTICLE TWO

"ERADICATION OF MOSQUITOES IN LOWS' SWAMP"

Voted—That the sum of $750.00 be appropriated from the Free Cash in the Treasury for the eradication of mosquitoes in "Lows' Swamp," so called; the same to be spent under Chapter 252 of the General Laws as amended by Chapter 457 of the Acts of 1923 and subsequent amendments, especially Chapter 288 of the Acts of 1929; provided that an equal amount be appropriated by the Commonwealth of Massachusetts for the same purpose.

ARTICLE THREE

"MISCELLANEOUS"

Voted—That this meeting be dissolved.

ROSCOE B. BATCHELDER,

Town Clerk.

SPECIAL TOWN MEETING

October 30, 1933

ARTICLE ONE

"CONTINUATION OF PLEASANT STREET"

Voted—To authorize the Selectmen to lay out, take and improve, according to Chapter 82, General Laws, Sections 21 to 32 inclusive, the "Extension of Pleasant Street," so called, from Point "A" to Point "E" so designated on plans submitted by the petitioners and made by Frank W. Hammond.

ARTICLE TWO

"IMPROVEMENT OF PLEASANT STREET EXTENSION"

Voted—That the sum of $1,500.00 be raised and appropriated for the improvement of the Private Way leading from Pleasant Street to Idlewood Lake, as per plan of Frank W. Hammond now on file. Any necessary survey to be charged to this appropriation. The work to be done under the supervision of the Selectmen and the Unemployment Committee.

ARTICLE THREE

"EXTRA MONEY FOR THE CEMETERY"

Voted—That the sum of $50.00 be raised and appropriated for additional work at the Cemetery.

ARTICLE FOUR

"GARBAGE COLLECTION"

Voted—That this matter be referred to the next Annual Town Meeting.

ARTICLE FIVE

"MISCELLANEOUS"

Resolved—That it be the sense of this meeting that the inhabitants of the Town of Wenham protest the driving of wells or the taking of the underground water supply within the borders of this Town by the Salem and Beverly Water Board.

And Be It Further Resolved—That the Water Board of the Town of Wenham take necessary action to protect and insure this source of water supply for the inhabitants of the Town of Wenham.

Voted—That this meeting be adjourned until November 20, 1933, at 7:30 P. M.

ROSCOE B. BATCHELDER,
Town Clerk.

ADJOURNED SPECIAL TOWN MEETING

November 20, 1933

Voted to take up Article One.

ARTICLE ONE

"PLEASANT STREET EXTENSION"

Voted—That the Town accept as a Public Way, an Extension of Pleasant Street as laid out by the Board of Selectmen, from a point marked "B" to Pleasant Pond, as shown on a plan of Frank W. Hammond and now on file with the Town Clerk.

Voted—That this meeting be dissolved.

ROSCOE B. BATCHELDER,
Town Clerk.

AUDITOR'S REPORT

The accounts of all officers of this Town intrusted with the receipt, custody or expenditure of money, have been examined and the cash balance December 31, 1933, has been verified by actual count and by reconciliation of bank balances.

W. ARTHUR TROWT,

Auditor.

Wenham, Mass., Feb. 13, 1934.

ESSEX, ss.

Then personally appeared W. Arthur Trowt and made oath that the above statement is true.

ARTHUR D. PRINCE,

Justice of the Peace.

SELECTMEN'S REPORT

The operations of the various departments of the Town government are so well known to the majority of our citizens that it hardly seems necessary for the selectmen to comment on any in particular.

We cannot use that well-worn statement, "The past year has been like many that have gone before," for 1933 has brought with it dreams and plans and accomplishments which not so many years ago would have been thought to belong to the witchcraft days.

The Commonwealth has co-operated with the Town in furnishing advice and money for the purpose of eradicating mosquitoes in "Low's Swamp."

The Federal Government has provided several thousand dollars in order to provide work for the unemployed, and this is being used for the extension of Pleasant Street to Idlewood Lake.

Federal funds have also been furnished so that coal, pork, beans and butter could be distributed to those in need of assistance.

Permanent sidewalks have been extended on Main and Cherry streets.

The Town Hall building has been painted on the outside and the offices have been re-decorated.

With appreciation of your co-operation.

ELMER E. CLARKE
ARTHUR D. PRINCE
SAMUEL S. CONARY

Selectmen.

REPORT OF THE BOARD OF HEALTH

The Board of Health was organized for the year 1933 with the election of Dr. Frederick A. Webster, chairman; Frank H. Tarr, agent, and William Cummings, secretary.

During the past year there has been an absence of complaints relative to nuisances within the town.

The amount of reportable contagious disease has been small. The cases of scarlet fever which have been reported were carefully studied with reference to their sources and milk supply. In each instance it was found that the cause lay beyond the milk subject to our inspection.

The Board of Health has been granted permission by Mr. and Mrs. W. Dodge and by Mrs. J. Mason to utilize the swampy pond in the rear of Arbor Street as a dumping place for refuse in order to fill it up. At certain times of the year this depression is partly filled with water, which serves as a breeding place for mosquitoes and flies. In fairness to the above mentioned land owners, it is hoped by the Board that those who avail themselves of the opportunity to dump rubbish here will be careful to place such rubbish in the depression or pool and not upon the surrounding land. When sufficient material has been placed here, we have been promised by Mr. Lynch that the site will be levelled off and made sightly, at the same time obliterating a source of contagion.

The report of the Milk Inspector, Mr. John Daley, follows.

Respectfully submitted,

FREDERICK A. WEBSTER, *Chairman.*
WM. I. CUMMINGS, *Secretary.*
F. H. TARR, *Agent.*

MINIMUM QUARANTINE REQUIREMENTS

Recommended by the Massachusetts Department of Public Health.* Approved and adopted by the Wenham Board of Health, May 28, 1928.

Anterior Poliomyelitis (Infantile Paralysis) — Minimum period of quarantine of patient, two weeks from onset of disease, and thereafter until acute symptoms have subsided. Control of contacts: Adults, no restrictions except as to adult food handlers (Note 1); Immune Children, no restrictions; Children not immune, if child lives away from home one week and stays away from home, can re-enter school, otherwise same restrictions as patient. Placard—Yes.

Chicken Pox — Quarantine, seven days and until all crusts have disappeared. Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Diphtheria — Quarantine, one week from date of report and until two successive negative cultures, taken at least 24 hours apart, from nose and throat, have been obtained. Contacts: Adults, no restrictions save Note 2; Immune Children, if two negative cultures are taken and quarantine is effective, the child can then continue in school; Children not immune, if two negative cultures are taken and child lives away from home, then can continue in school; quarantine at home otherwise. Placard—Yes.

Cerebro-Spinal Fever (Cerebro-Spinal Meningitis) — Quarantine, two weeks from onset of disease, and thereafter until all acute symptoms have ceased. Contacts: Adults, no restrictions save in certain occupations (Note 1); Immune Children, if

* These same requirements are recommended by the Massachusetts Association of Boards of Health.

child lives away from home 10 days and continues to live away from home, can re-enter school; Children not immune, if child lives away from home 10 days and continues to live away from home, can re-enter school. Placard—Yes.

German Measles — Quarantine, one week from date of rash. Contact: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Measles (Note 4) — Quarantine, one week from date of rash. Contacts: Adults, no restrictions save non-immune school teachers; these handled as non-immune children; Immune Children, no restrictions; Children not immune, exclusion from school for 16 days from the date of last exposure. Placard—Yes.

Mumps — Quarantine, one week from onset of disease, and thereafter until the disappearance of swelling of salivary glands. Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Scarlet Fever — Quarantine, four weeks from date of rash and thereafter until the discharges from nose and throaat, ear or abscesses or other surfaces (e. g., puerperal or surgical scarlet fever) have ceased. Contacts: Adults, no restrictions save in certain occupations (Note 1); Immune Children, no restrictions if away from home; Children not immune, if child lives away from home one week and continues to live away from home, can re-enter school. Placard—Yes.

Smallpox — Quarantine, three weeks and until crusts have disappeared and skin is healed. Contacts: Adults, Note 3; Immune Children, Note 3; Children not immune, Note 3. Placard—Yes.

Whooping Cough — Quarantine, three weeks from beginning of spasmodic cough. Contacts: Adults, no restrictions; Immune

Children, no restrictions; Children not immune, exclusion from school two weeks from exposure. Placard—Yes.

Typhoid Fever — Quarantine, one week after subsidence of clinical symptoms; if patient is a food handler he must have at least two negative cultures from both stool and urine; cultures must be taken at least a week apart (Note 5). Contacts: Adults, no restrictions save for food handlers, who cannot continue any work requiring food handling without permission from the local Board of Health; Immune Children, no restrictions. Placard—No.

Septic Sore Throat — Quarantine, during the clinical course of the disease and convalescence, complete exclusion of the patient from participation in the production or handling of milk or milk products until permission is granted by local Board of Health. Contacts: Adults, during the clinical course of the disease and convalescence all contacts to be excluded from participating in the production or handling of milk or milk products until permission is granted by the local Board of Health.

Notes

1. School teachers should have same restrictions as school children. Food handlers and others whose occupation brings them in contact with children have no restrictions if they live away from home.

2. School teachers must have two successive negative cultures taken 24 hours apart; food handlers and others whose occupation brings them in contact with children one negative culture.

3. If the patient goes to the hospital, isolation for three weeks for the non-immune contacts. If the patient stays at

home, non-immune persons living in the same household with the patient must remain in quarantine for three weeks after death or recovery of the patient.

4. Warning signs on house seven days *if there are no susceptibles in the family.* If there are susceptibles the placard is kept on sixteen days. If on the sixteenth day there are children showing prodromal symptoms of measles the card is not removed.

5. It is recomended that at least two negative cultures from both stool and urine be obtained in all cases. Cultures should be taken at least a week apart.

UNEMPLOYMENT COMMITTEE REPORT FOR THE YEAR 1933

At a special meeting of the Finance Committee the sum of $1,000 was set aside from the reserve account for special work in the town, the labor to be provided by those who were temporarily out of work.

Following th finance meeting the Selectmen appointed James G. Callahan, Henry O. Phippen and Louis A. Dodge, a committee to be known as the "Unemployment Committee," whose duty it shall be to investigate the financial status of such persons as may apply for financial aid and to furnish relief to the same in the form of labor in such quantities as to time as in their judgment each case may deserve, at the rate of 40 cents per hour, as fixed by the Finance Committee, the same to be paid from the above $1,000, unless otherwise provided for.

The committee held weekly meetings in the Town Room from May 15 until October 11, 1933. The case of each applicant was carefully considered, his allotment of time was such as to enable him to receive such a weekly wage as was consistent with the caloric table based on 1928 food prices, as compounded by the State and being the same as furnished for the use of a like committee in other cities and towns.

The first project to be undertaken was the widening of the road at Grapevine Bridge, which was completed at a cost of approximately $650.00.

The turn at the junction of Cherry Street and Topsfield Road was also improved by the removal of several trees and the widening of the street. Several of our strets were also improved by the repairing of the shoulders where conditions required. Bushes were cut along some of our highways and several objectionable trees were removed, the expense of which

was taken from the appropriations of the Moth department and Tree Warden.

The draining of Low's Swamp was begun on July 24, under the supervision of the State Mosquito Control Board, and was completed about the middle of October. The labor was allotted by this committee, as on previous occasions, to only Wenham men, who were directed by Mr. James Kinsella as local foreman.

Your committee also attempted to furnish labor to the owners of private estates, and in so doing letters were written to some twenty-five or more property owners, resulting not only in obtaining day labor, but in some instances it lasted all summer.

During the summer we have been able to assist in the financial support of twenty-four of our citizens, all of whom had dependents.

As a committee we are of the opinion the men have returned to the town by their labor due recompense for the financial assistance they have received.

REPORT OF DRAINAGE OF THE SWAMP BETWEEN FRIEND COURT, MAIN STREET AND LARCH ROW

The Wenham Mosquito Control Project was set up under the provisions of Chapter 112, Acts of 1931, by the State Reclamation Board, on July 17, 1933. Messrs. Arthur D. Prince, Elmer E. Clarke and Samuel S. Conary were appointed Commissioners. The purpose of the project was to drain the swamp-land lying between Friend Court, Main Street and Larch Row, and thus stop mosquito breeding in this area.

The swamp was first examined by the entomologist of the State Reclamation Board in September, 1932. He found evidence of heavy mosquito breeding and recommended drainage as the best method of preventing it.

In order to determine how the swamp could be drained, the Town appropriated funds for a survey. A survey and map were made in November, 1932, by A. B. Henderson, Civil Engineer, Beverly, Mass. This survey showed that the existing outlet of the swamp under Friend Court was not low enough to drain the swamp. This made it necessary to provide a new outlet, and it was finally determined to carry the water from the east side of the swamp into the natural drain through the culvert under Larch Row into the Miles River.

Funds for the project were provided by an appropriation of $750 by the Town of Wenham, and the allotment of an equal amount by the State Reclamation Board from funds provided by the State Legislature for mosquito control work as unemployment relief.

Work on the project was started in the latter part of July, 1933, and continued for fourteen weeks. In order to make the project provide as much relief as possible, the work was staggered, and twenty-five different men were employed for a

total of 2,890.5 hours. An average of nine men was used each week. All of the men who worked on the project resided in Wenham.

The amount of ditching provided is as follows:

	Length feet	*Av. Depth feet*	*Width inches*
Main ditch	2,200	2.5	24–30
South lateral	630	3.0	30
North lateral	1,030	3.0	30
Terminal ditch from golf course along west side of swamp	1,355	1.5	24
Terminal ditch along north side of swamp	625	1.0	18
Short ditch from rear of fire station to terminal ditch	160	2.5	24
Total	6,000 ft.		

It was found to be necessary to pipe about 600 feet of the main ditch east of the swamp where sand was encountered. 18-inch tile pipe was used for this purpose, and was furnished by the Town.

A gate with stop-planks was constructed where the main ditch enters the pipe, in order that the drainage into Miles River could be stopped in the fall and the accumulated water diverted into the old drain under Friend Court for the purpose of supplying the skating pond of the Village Improvement Association. It is essential for mosquito control that the swamp be dry before the warm days of spring arrive, hence the stop-planks should be removed as soon as sufficient water reaches the skating pond.

All surveying for laying out the ditches and establishing the grades was done by A. B. Henderson, Beverly, Mass.

The work was carried on under the direction and supervision of the State Reclamation Board.

Respectfully submitted,

ROBERT W. WALES,

Entomologist, State Reclamation Board.

Forty-ninth Annual Report

OF THE

Trustees of the Public Library

OF THE

Town of Wenham, Mass.

FOR THE

YEAR ENDING DECEMBER 31, 1933

SALEM, MASS.
NEWCOMB & GAUSS CO., PRINTERS

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

To the Citizens of the Town of Wenham.

The report of the Librarian, Mrs. Frank Burton, shows a marked increase in the use of our Library for the past year, A total increase of over 1,200 books circulated amongst the people of our town than the year previous. There has also been an increase of 70 or more registered readers.

We have distributed three issues of printed Booklist of title and author of all new books added to the Library. These booklists are printed upon standard book size sheets with wide margin upon one edge and holes punched for the convenience of assembling between covers for their preservation. The new books will not be listed in the Town Report, the Trustees believing that the new booklists will serve the reading public better by bringing the new books to the attention of the readers as soon as they are available.

A magazine rack was purchased for housing and displaying the current magazines, which heretofore have been scattered over the surface of the reading table, presenting rather an untidy appearance in spite of the constant attention given to the arranging of these magazines by the Librarian and her assistant. The use of a rack for the magazines has given the Library the much-needed table facilities for the reference books and research work for those citizens who wish to use the Library for that purpose.

Miss Helen Aylward and her "Story Hour" continue to attract the children of the town, and the ten story hours given during the winter months were very well attended.

A set of 15 volumes of world history, called "The World's Story," by Eva March Tappan, was added to the list of chil-

dren's books and has already proved to be a very helpful addition to this department.

In order to keep our Library in the forefront of libraries for towns of our size and to make it a worth-while adjunct to our schools for the education of the children, our Librarian, Mrs. Burton, is attending the Round Table of Children's Librarians for the city and town librarians around Greater Boston. There are five meetings during the year, and they get together for a meeting of practical instruction, such as reviewing the outstanding books for children and becoming familiar with the newest and best of the "new editions." These meetings are conducted by some prominent librarian, and Mrs. Burton reports them to be most delightful and interesting as well as very helpful meetings.

To further increase the value of our children's department, we have subscribed to memberships to the Junior Literary Guild, one for the younger children 6 to 8 years, and one for the boys and girls of 9 to 11 years. These subscriptions entitle us to one book per month per subscription, and these books are selections made by the Guild's staff, composed of people foremost in the literary field.

The Trustees hereby acknowledge the receipt and their appreciation of the gifts of books to the Library during the past year.

The appended report of the Librarian gives you the year's work in detail.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF WENHAM

FOR THE

YEAR ENDING DECEMBER 31, 1933

SALEM, MASS.
NEWCOMB & GAUSS CO., PRINTERS
1934

REPORT OF SCHOOL COMMITTEE

To the Citizens of Wenham:

There were a number of problems arising in 1933 in school matters to occupy the attention of your School Committee. The need of economy was paramount in the minds of your Committee and Superintendent, and our aim has been to see that full value was received for each dollar expended. The Committee in submitting its 1933 Budget reduced its estimate from the total of the appropriation for the previous year. The total appropriated for 1932 was $29,000, and for 1933 the amount was $28,000.

At our first meeting following Town Meeting last March, a study of the teaching situation was arranged for, and this was carried out during the spring term. From October, 1932 to June, 1933 there was a teacher specially assigned to the second grade, and also to assist children in the third grade needing individual instruction. This plan made it possible for Miss Gove, who had formerly taught the first two grades, to devote all her attention to the beginners in Grade I, and for Miss Smith, teacher of Grades III and IV to devote more time to Grade IV, as she was relieved of part of the pupils in Grade III.

While much good for the pupils was obtained by having this extra teacher, the reduced appropriation for 1933 made a curtailment in our teaching staff necessary and the Committee dispensed regretfully with the services of the extra teacher in June, and the school year commenced in September with Miss Gove teaching the first and second grades and Miss Smith the third and fourth grades.

The resignation of Miss Stockley, art supervisor, on account of approaching marriage, was presented to the Committee in May and accepted to take effect in June. Through the special study

made of the teaching situation, a plan was worked out, and put into effect in September, to have Miss Smith, teacher of the third and fourth grades, who was well grounded in art work while a student at Lowell Normal, supervisor without an increase in salary. Arrangements were made to relieve Miss Smith of part of her duties as grade teacher, to enable her to have stated periods each week to supervise the drawing and art work of the entire school, and the teaching of certain subjects in her room was performed by the teacher of the fifth grade, and at the same time the teaching of part of fifth and sixth grade subjects was performed by a Junior High School teacher. This plan of a limited amount of departmental teaching in the elementary grades has worked out satisfactorily and, as will appear in the Principal's report, it seems desirable to continue this plan for the remainder of this school year, in spite of Miss Smith's resignation in December.

The resignation of Miss Smith in order to accept a position in her home town of Methuen, was accepted with regret by your Committee, to take effect at the beginning of the Christmas vacation period, as Miss Smith had served well as teacher of the third and fourth grades and as art supervisor. In these two grades this year are 36 active and lively children, and the Committee realized the necessity of obtaining an experienced teacher to succeed Miss Smith, if the children were not to suffer by a change in teachers in the middle of the school year. Consequently, Miss Florentina Long, a teacher in Wilmington, a graduate of the University of Maine School of Education, who had several years of experience in teaching, was elected to fill the vacancy, and she commenced her duties in January.

Mrs. Abbie Cragg Eaton, who had in previous years served as art supervisor in Wenham, prior to her marriage, has been elected as art supervisor for the remainder of this school year.

Miss Margaret I. Hamilton, teacher of the fifth and sixth grades since 1930, tendered her resignataion, to take effect in June, on

account of approaching marriage, and it was accepted with regret, as her services had been faithful and efficient. Miss Marjorie Keyes, a graduate of Fitchburg Normal School, who had a successful record of teaching in Deerfield and Winchester, was elected to succeed Miss Hamilton.

Miss Margaret B. Seymour, teacher of Latin, Algebra and History in our Junior High School since 1931, resigned during the summer to accept a position at Belmont Junior High School, and her resignation was accepted with regret. Miss May R. Ackerman of Beverly, a graduate of Smith College and a teacher at Bacon Academy, Colchester, Connecticut, was elected to succeed Miss Seymour.

The Superintendent and Principal, as will be noted from reading their reports, which follow, speak highly of the work of our new teachers and of their interest in the welfare of the children under their charge.

High School Matters

Particular consideration to our Junior High School has been given by the Committee the past year. The instruction given appears to be of the right kind, as graduates of Wenham Junior High School as a whole, do good work at Beverly High School. Your School Committee has made it a practice to examine regularly the reports of Wenham pupils at Beverly High. The Committee members were pleased to see in the spring that Margaret Cosh and Austin Campbell of Wenham had received First Honors. In the fall we were glad to learn that Elizabeth Porter had received First Honors, and William V. Ransom and Helen Sargent had received Second Honors.

One of our Junior High School graduates is making a fine record at Essex County Agricultural School. The recent rank card of Evelyn Homan shows A or B grades in all subjects.

Age of Admission to First Grade

In order to assure that beginners in our elementary grades will be mature enough to attend school with good results to themselves, a change in the Age of Admission Requirements was made in May and due notice given to parents by publication in the Salem News and otherwise. The new rule provides: "Pupils must be at least five years of age April first previous to enrollment in September or pass an intelligence test examination showing a mental age of five and a half years and be pronounced physically able to do the work of Grade I." Five of those under the age requirement, who took the test last summer, passed and were admitted to Grade I.

New Form of Report Card

A new form of report card, prepared by the Superintendent, was adopted by the Committee. This form was devised to furnish more information to parents regarding the progress in school of their children, particularly regarding children in the early grades. It should bring about closer co-operation between parents and teachers, in getting children started on the right track in their school work.

Health Work

Through the co-operation of the State Department of Public Health a dental clinic was held in the fall and the teeth of the pupils at the Center School were examined.

The Department of Public Health conducted a clinic in the fall to detect possible signs of tuberculosis. Examination was voluntary. Nearly a hundred pupils were examined.

The School Physician, Dr. Corcoran, examined pupils for defects other than as above stated.

The usual sight and hearing tests were conducted.

In compliance with State law, arrangements have been made to have an examination made of pupils three or more years retarded.

Statistics regarding these examinations appear in the School Nurse's report, which follows, and to which attention is called. The School Nurse has had much to do the past year and, as usual, she has put in much overtime and has performed her duties faithfully.

Today it is realized that prevention is better than cure, and by detecting defects and ailments early in life, corrective steps may be taken which will prevent bad health in future life.

Repairs

As the Town was liberal in its action on the Committee's request in the matter of repairs two years ago, at the Town Meeting in March, 1932, the building a year ago was believed to be in good condition and only a small amount was requested in 1933 for repairs. The floor, however, of the third and fourth grade room needed replacement. To repair the old floor was found to be almost as expensive as to lay a new floor. and the Committee deemed it economical to have a new floor laid in 1933 while prices were low, and it was doubtful if the work could be done as cheaply hereafter. This was the most important expenditure for repairs in 1933.

Fire Prevention and Safety

The school fire alarm system was overhauled and put in order during the summer vacation. Fire extinguishers have been refilled. The fire drills for the children have been held as usual.

The Expenditures have been as follows:

General Expense	
Superintendent's Salary	$880 08
Other Expenses	389 28
Expense of Instruction	
Teachers' Salaries	12,582 50
Textbooks	229 01

	$27,981 52

During the year the state reimbursed the town as follows:

Superintendent's Salary	$340 28
Superintendent's Travel Allowance	54 44
Transportation of High School Pupils	850 50
Allowance for Trained and Experienced Teachers	1,730 00
Vocational Education (including Transportation)	836 59
Total	$3,811 81

The Budget for 1934 requested by the Committee is as follows:

Wenham School Department Budget, 1934

General Expense	
Superintendent's Salary	$880 00
Other Expenses	340 00
Expense of Instruction	
Teachers' Salaries	12,300 00

New Equipment	100 00
Other Payments	100 00
	$27,020 00

In preparing the budget the Committee held several meetings and bore constantly in mind the need of reducing expenses as much as possible.

The above budget is $980 less than the 1933 appropriation.

The Committee wishes to express its appreciation of the faithful and efficient services of the superintendent, principal, supervisors, teachers, janitor and school nurse. It also desires to thank the parents and citizens for their continued support and co-operation.

Total number of pupils for which the Town of Wenham provides educational opportunities — 178.

School Attendance

Due to the large number of pupils absent from school because of either having or being exposed to whooping cough, our attendance record for the year has not been up to the usual high standard. The continued absence of from twenty-five to fifty per cent of some grades over a period of three to six weeks has greatly retarded the progress of the pupils and will, of course, make it difficult to accomplish the regular year's work.

Teachers

Changes in the teaching force have been as follows:

The special work with pupils of the first four grades, as carried on by Miss Phyllis Specht was discontinued in June, and Miss Specht at that time terminated her services. After three years' service as teacher of grades five and six Miss Margaret Hamilton resigned to be married at the close of school in June. This vacancy was filled by the election of Miss Marjorie Keyes, a teacher of three years' experience, who had recently been employed in the Winchester school system.

Miss Frances Stockley, Supervisor of Art, resigned to take effect at the close of school in June, on account of her approaching marriage.

Realizing that some saving might be made if the work of the

Art Supervisor was conducted by one of the regular teaching force, Miss Smith was relieved of certain teaching duties that she might conduct the Art work throughout the grades. Miss Smith served as teacher and Art Supervisor from the opening of schools in September until her resignation became effective in December.

Miss Florentina Long was elected to the position as teacher of grades three and four made vacant by Miss Smith's resignation.

There being no regular teacher in the system to supervise the Art work after December, the services of Mrs. Abbie Cragg Eaton, formerly Supervisor of Art in the Wenham Schools was secured. Mrs. Eaton devotes one day weekly to teaching Art and Art Appreciation.

Miss Margaret B. Seymour, having been elected to teach in the Belmont school system, resigned her position in July. This position was filled by the election of Miss May Ackerman, who came to us highly recommended from the Colchester, Connecticut, school system.

In recommending a teacher to your Committee for an election your superintendent endeavors to assure himself of the fact that the candidate has the best of training and is experienced in doing a high grade of work as proven by teaching experience. The teachers in our system have proven by their service that they are exceptionally well prepared to do their work; that they seek further training to keep abreast of the times, and that they individually feel a responsibility for maintaining a high standard of work in their own field of instruction as well as throughout the building.

Every child is an individual problem to the teacher, as it should be.

Pupils in our schools benefit by the high quality of work done by teachers, supervisors, and nurse, as manifested by their success while pupils in our school and by their splendid progress in other educational institutions.

Nursery School

Through aid provided by the Federal Government, a Nursery School has been established in the South School at Hamilton for children of Hamilton and Wenham. The school is to be conducted three hours on three mornings each week until June 30th. There are enrolled twenty-six from Hamilton and seven from Wenham. Wenham provides a share of the equipment for the school.

In case government funds are not available for continuance of this work after June 30, it is hoped that either the towns will find it possible to maintain the schools as a part of the public school program or that parents of children of Nursery School age will provide the funds for continuing the work.

Promotion

Promotion reports in June showed that 125 pupils received full promotions, 7 pupils received conditional promotions, while 16 were not promoted.

The number not promoted was exceptionally high, but in every case the pupil was given the benefit of the doubt if his promotion seemed to hang in the balance and if a promotion seemed jusified by all the facts at hand.

Due to the fact that in every grade there are generally pupils of high and low ability, the grade should be divided so that pupils of low ability might receive more individual attention.. This is impossible in rooms having two or more grades, and therefore pupils who cannot master the work with the individual help they may receive from the teacher are required to repeat the year's work.

It is far more important that pupils do a high grade of work in the elementary and junior high schools than to just make the grade and then fail utterly in the senior high school.

The records of pupils after leaving our schools seem to justify

our procedure in requiring a high standard of work to obtain promotion.

Age of Admittance

By action of your committee the age of admittance has been raised approximately five months. This regulation provides a much more mature group of pupils for meeting requirements of the first grade. The continuance of giving the intelligence examination to pupils under age still allows the under-age pupil with exceptional intelligence to be admitted to the first grade.

Five pupils took the intelligence examination in September. All were admitted, as intelligence scores were as follows: 100, 106, 109, 111, 130. The mental age score for these pupils ranged from five years to six years and ten months.

Pupils presented for examination in September, 1934, will need to be five years of age chronologically, five years five months mentally and receive an intelligence score of at least 106.

Rank Sheets

For several years a very simple rank card has been used to inform parents of the progress of their children. This card recorded the attendance and progress of pupils but gave no definite reasons for the pupils having attained a high, medium, or low mark.

Beginning with this school year a very complete rank sheet was adopted for use in the schools. Believing that "Habits and Attitudes Desirable for Good Citizenship" are of the greatest importance the sheet for each grade designates those points to be emphasized.

The number of points under which pupils of grades one to nine are rated under "Habits and Attitudes Desirable for Good Citizenship" varies from thirty-four in the lower grades to eleven in the

upper grades. Under "Achievement in Studies" there are approximately eighteen items for recording progress of pupils in all grades.

A teacher's comment on the rank sheet is: "I think the new report sheet is very complete and covers the essentials which a modern school system has to offer its boys and girls. The list of 'Habits and Attitudes Desirable for Good Citizenship' will give the child definite knowledge of what is expected of him and furnish an incentive for his best work. The complete card furnishes the parents an excellent explanation of the meaning of the marks besides informing them of what the school is doing in addition to the routine 'Readin', 'Writin', and 'Rithmetic'."

It is interesting to note that the teacher quoted above was able to inspire her pupils to improve their marks to the extent that over a ten weeks period improvements ranged from one to thirteen points for each pupil.

If parents and teachers co-operate in holding before the boys and girls as high marks as they can attain, we should feel that much may be expected of them in the future.

In closing I wish to express appreciation for the splendid co-operation I have received from the School Committee, the several organizations of the town, the parents and teachers in the work of administering the schools.

Respectfully submitted,

February 1, 1934. JOHN D. WHITTIER.

PRINCIPAL'S REPORT

To the Superintendent of Schools,

Dear Sir: I herewith submit my eleventh annual report of the Wenham Center School.

The resignations of Miss Seymour and Miss Hamilton made necessary two changes in our personnel of teachers last fall. Miss May Ackerman of Beverly was secured to teach Latin, algebra and history, and Miss Marjorie Keyes of Deerfield was selected as teacher of grades five and six. It is gratifying to know that these new teachers, like those older in service, are interested in the children and eager to work for their welfare.

Due to the fact that Miss Smith has been teaching all the drawing throughout the building since September, a small amount of departmental work has been necessary in the elementary grades. The election of a supervisor, following Miss Smith's resignation, has, of course, done away with that need, yet the results thus far obtained have made it seem wise to continue such a procedure for the remainder of the school year.

Along with the Debating, Dramatic and Boat clubs in the Junior High School, we now have a group known as the Citizenship Club. Its scope is a broad one, and we aim, through its meetings, guided by Miss Ackerman, to develop more socially-minded citizens.

The proceeds of our school play, given on February fifteenth, made possible our new stage setting and paid for the football equipment which the boys had enjoyed the previous fall.

Last year the history contest sponsored by Hon. Elbridge Anderson, was held on May twelfth. Our school was represented by Vera Christofferson, Barbara Trowt, Richard Phippen, Carlton Dodge and Charles Davis. Each paper, written on the life and work of a president, proved interesting and educational, not only to the writer but to all those attending the contest. Although the

cup was awarded to Hamilton, the first prize was given to Richard Phippen of Wenham.

In her sewing classes, Mrs. Joslin has tried, as formerly, to make the work practical. We hope that on completion of the course each girl will at least be more efficient in the planning and care of her own wardrobe, and will be well able to aid in taking care of the many stitches necessary in any home.

The recipes given the pupils of the cooking classes are useful and economical. So much interest seems to have been aroused in the art of cooking, at school, that many of the girls bring in reports of having used the same recipes at home, successfully. We therefore have reason to feel that this course is proving worth while.

Our woodworking classes still include the boys from the fifth through the ninth grades. The fifth grade boys are assigned projects covering the range of tool operation to be included in their instruction for the year. As they progress from year to year in this work the restraint on their selection of projects is lessened, until by the time they have reached the ninth grade major pieces of furniture are being built. If their interests include activities making use of boats, both full-sized and model, these are constructed as part of their regular shop work. Design and proper finish are emphasized in an attempt to bring the importance of this part of woodworking to their attention. As there are no power tools in the shop, the scope and content of our courses vary from that of the schools where power equipment is used. Yet the boys are interested in all the hand-tool operations, and acquire a knowledge of the fundamentals of woodworking that is bound to be of value through life.

In the fall it was gratifying for us to hear that no school in the Superintendency Union had as few tardy marks as we, during the last school year. It is now evident that our good record will be lost unless our tardinesses decrease in number. We realize that

certain conditions might arise making it impossible for a child to reach school on time, yet this is not always the case. May we ask your co-operation in developing the habit of punctuality in the children of Wenham?

In closing, I wish to express my appreciation to the parents for their support, to the teachers for their loyalty, and to the Superintendent and School Committee for their guidance and helpfulness.

Respectfully submitted,

BESSIE M. BUKER,

Principal.

CLASS ODE

Always Forward

To our own dear Junior High
We must bid a sad good-bye,
To the teachers dear who helped us through the years;
To our loyal classmates true,
We now bid a fond adieu,
And carry on for dear old Junior High.

To the happy moments spent,
We our joyful hearts have lent,
Always forward both in work and in play;
As we go our many ways,
We can ne'er forget these days,
And let our motto always be our guide.

Always forward we are going!
To each goal we have in mind,
'Till at last we find success
Ever on to happiness
Always forward is the motto of our choice!

REPORT OF THE PARK COMMISSION

To the Citizens of the Town of Wenham:

The work for 1934—There was nothing special done at the parks; just the regular upkeep.

Owing to the severe winter we lost the hedge at Peters' Monument; it was cut back and is responding very well.

We were able to sell the hay at Pingree Field this year, which helped on the cost of cutting.

Respectfully submitted.

JACOB D. BARNES,

Chairman of Park Commission

REPORT OF THE BOARD OF HEALTH

The Board of Health organized for the year of 1934 with Dr. Frederick A. Webster, chairman, Frank H. Tarr, secretary, and William I. Cummings, agent. Mrs. Ethel Wentworth was appointed superintendent of burials and recorder of deaths.

There have been ten cases of contagious disease reported during the year; one measles, one whooping-cough, one chicken pox; and seven scarlet fever, four of which were in one family. Each case of scarlet fever was investigated as to its source and it was determined by our milk inspector that none of the cases came from milk which fell under our inspection.

On Dec. 11, 1934, a hearing was held by the State Department of Public Health at the State House, for the purpose of considering the purchasing or taking of land bordering on Wenham Lake by the Salem and Beverly Water Boards. Our interests were represented by Mr. Elbridge Anderson and the chairman of your Board.

The report of the Milk Inspector, Mr. John Daley, follows.

Respectfully submitted,

FREDERICK A. WEBSTER, *Chairman.*
FRANK H. TARR, *Secretary.*
WM. I. CUMMINGS, *Agent.*

MINIMUM QUARANTINE REQUIREMENTS

Recommended by the Massachusetts Department of Public Health.* Approved and adopted by the Wenham Board of Health, May 28, 1928.

Anterior Poliomyelitis (Infantile Paralysis) — Minimum period of quarantine of patient, two weeks from onset of disease, and thereafter until acute symptoms have subsided. Control of contacts: Adults, no restrictions except as to adult food handlers (Note 1); Immune Children, no restrictions; Children not immune, if child lives away from home one week and stays away from home, can re-enter school, otherwise same restrictions as patient. Placard—Yes.

Chicken Pox — Quarantine, seven days and until all crusts have disappeared. Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Diphtheria — Quarantine, one week from date of report and until two successive negative cultures, taken at least 24 hours apart, from nose and throat, have been obtained. Contacts: Adults, no restrictions save Note 2; Immune Children, if two negative cultures are taken and quarantine is effective, the child then can continue in school; Children not immune, if two negative cultures are taken and child lives away from home, then can continue in school; quarantine at home otherwise. Placard—Yes.

Cerebro-Spinal Fever (Cerebro-Spinal Meningitis) — Quarantine, two weeks from onset of disease, and thereafter until all acute symptoms have ceased. Contacts: Adults, no restrictions save in certain occupations (Note 1): Immune Children,

* These same requirements are recommended by the Massachusetts Association of Boards of Health.

if child lives away from home 10 days and continues to live away from home, can re-enter school; Children not immune, if child lives away from home 10 days and continues to live away from home, can re-enter school. Placard—Yes.

German Measles — Quarantine, one week from date of rash. Contact: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Measles (Note 4) — Quarantine, one week from date of rash. Contacts: Adults, no restrictions save non-immune school teachers, these handled as non immune children; Immune Children, no restrictions; Children not immune, exclusion from school for 16 days from the date of last exposure. Placard—Yes.

Mumps — Quarantine, one week from onset of disease, and thereafter until the disappearance of swelling of salivary glands. Contacts: Adults, no restrictions; Immune Children, no restrictions; Children not immune, no restrictions. Placard—No.

Scarlet Fever — Quarantine, four weeks from date of rash and thereafter until the discharges from nose and throat, ear or abscesses or other surfaces (e. g., puerperal or surgical scarlet fever) have ceased. Contacts: Adults, no restrictions save in certain occupations (Note 1); Immune Children, no restrictions if away from home; Children not immune, if child lives away from home one week and continues to live away from home, can re-enter school. Placard—Yes.

Smallpox — Quarantine, three weeks and until crusts have disappeared and skin is healed. Contacts: Adults, Note 3; Immune Children, Note 3; Children not immune, Note 3. Placard—Yes.

Whooping Cough — Quarantine, three weeks from beginning of spasmodic cough. Contacts: Adults, no restrictions; Immune

Children, no restrictions; Children not immune, exclusion from school two weeks from exposure. Placard—Yes.

Typhoid Fever — Quarantine, one week after subsidence of clinical symptoms; if patient is a food handler he must have at least two negatives cultures from both stool and urine; cultures must be taken at least a week apart (Note 5). Contacts: Adults, no restrictions save for food handlers, who cannot continue any work requiring food handling without permission from the local Board of Health; Immune Children, no restrictions. Placard—No.

Septic Sore Throat — Quarantine, during the clinical course of the disease and convalescence, complete exclusion of the patient from participation in the production or handling of milk or milk products until permisson is granted by local Board of Health. Contacts: Adults, during the clinical course of the disease and convalescence all contacts to be excluded from participating in the production or handling of milk or milk products until permission is granted by the local Board of Health.

Notes

1. School teachers should have same restrictions as school children. Food handlers and others whose occupation brings them in contact with children have no restrictions if they live away from home.

2. School teachers must have two successive negative cultures taken 24 hours apart; food handlers and others whose occupation brings them in contact with children one negative culture.

3. If the patient goes to the hospital, isolation for three weeks for the non-immune contacts. If the patient stays at home, non-immune persons living in the same household with

the patient must remain in quarantine for three weeks after death or recovery of the patient.

4. Warning signs on house seven days *if there are no susceptibles in the family* If there are susceptibles the placard is kept on sixteen days. If on the sixteenth day there are children showing prodromal symptoms of measles the card is not removed.

5. It is recommended that at least two negative cultures from both stool and urine be obtained in all cases. Cultures should be taken at least a week apart.

SELECTMEN'S REPORT

The outstanding experience of the town this year has been the defense of our rights in our underground water supply.

The Salem and Beverly Water Supply Board had petitioned the Legislature for permission to drill wells in Wenham in order to increase their supply of water.

At a hearing before the Legislative Committee on Water Supply held in the Gardner Auditorium at the State House on April 11, about 200 of our citizens appeared in protest. Mr. Elbridge R. Anderson was the legal representative for the town and Bayard F. Snow the engineer.

The Committee on Water Supply voted adversely on the petition and their vote was sustained in both House of Representatives and Senate.

The Pleasant Street extension has been completed and in settlement of land damages, Mr. Joseph F. Foster of Beverly deeded his lot, which borders on Pleasant Pond, to the town, and the town has now a frontage on the lake of about 100 feet.

Permanent sidewalks have been constructed on Larch Row and Cedar Street.

Guard rails and street signs have been repaired and painted under ERA projects.

The following are the projects which have been carried on and showing the amount of local funds which have been used and the amount of Federal funds.

Article Eight. To see if the Town will vote to accept the Cemetery Trust Funds received since January 1st, 1934, as printed in the Town Report.

Article Nine. To see if the Town will vote to raise and appropriate the sum of Thirty dollars and seventy-eight cents ($30.78) for the purpose of maintaining during the ensuing year the Mosquito Control works as estimated and certified to by the State Reclamation Board in accordance with the provisions of Chapter 112, Acts of 1931.

Article Ten. To see if the Town will vote to raise and appropriate the sum of Three thousand dollars ($3,000.00) for the purchase of materials and supplies, etc., to be spent in conjunction with the funds allotted to the Town by the Federal Emergency Relief Administration.

Article Eleven. To see what rental the Town will vote to pay to the First Church (Congregational) on account of the Town Clock having been installed in the spire of said Church, to raise money for the same or act anything thereon, as per petition of Lester E. Libby and others.

Article Twelve. To see if the Town will vote to raise and appropriate the sum of Five hundred dollars ($500.00) for a preliminary survey for a water system for the Town.

Article Thirteen. To see if the Town will accept as a Public Way the private way known as Howard Street, as laid out by the Selectmen, as shown by plan of Frank W. Hammond, or act anything thereon. Plan now on file with the Town Clerk.

Article Fourteen. To act on any other business that may legally come before said Meeting.

And you are directed to serve this Warrant by posting attested copies thereof, one at the Bulletin Board on Main Street, one at the Chapel at Mapleville, one near the Wenham Neck Church, and one near the residence of Addison Williams in the eastern part of the Town, seven days at least before the time of holding said Meeting.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place of the Meeting aforesaid.

Given under our hands this Ninth day of February in the year nineteen hundred and thirty-five.

ELMER E. CLARKE,

ARTHUR D. PRINCE,

SAMUEL S. CONARY,

Selectmen of Wenham.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

To the Citizens of the Town of Wenham:

In co-operation with the Committee of the Women's Branch of the CWA, the Trustees employed two women in the library for about six weeks, cleaning, renumbering and shellacing about 8,000 volumes, the work being supervised by the Librarian, Mrs. Frank Burton.

A course of five lessons upon the "Use of Library" was given to the pupils of the Junior High School by Miss Eleanor Trowt.

Miss Helen Aylward brought her delightful stories to the children during the winter months and the record for attendance was the best thus far.

Approximately 100 boys and girls, exclusive of High School pupils, are taking books from the library.

Children's Book Week was observed November 11-17, inclusive. A poster, "Riding the Trail to Knowledge," was displayed in the library, and "Hobbies" was the keynote for the children's books of the week.

The Trustees report a change in the personnel of the library the past year, due to the resignation of Miss Eleanor Trowt.

Miss Trowt became assistant to the Librarian during her senior year in High School, and upon graduation entered Simmons College to take up library work as a vocation. She remained as assistant during her four years of college, bringing to our library, with the enthusiasm of youth, the latest and best of library management, and in co-operation with our Librarian, Mrs. Frank Burton, helped to build up the library to its present high standard. Several months after graduation she accepted a position at the Jones Library, Amherst, Mass.,

and the Trustees accepted her resignation realizing that her new position was a reward and recognition of her ability and high standing in her chosen vocation.

Miss Eleanor Perkins accepted the position of assistant and has taken up the work with enthusiasm.

One of the problems of library work is the choosing of new books to be added to the library. These books are picked from selected and approved lists and passed out to the members of the Board of Trustees for approval. This work of looking over and passing upon these books, so that they may be accessioned as soon as possible after publishing, becomes at times more than the trustees can attend to, so in order to speed up the work of censuring the Trustees have selected a number of readers from the list of those who patronize the library the most, to help with the task of choosing these new books.

Your attention is called to the report of the Librarian, which is appended as a part of this report.

Respectfully submitted,

FRED ASHWORTH,
NELLIE A. DODGE,

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF WENHAM

FOR THE

YEAR ENDING DECEMBER 31, 1934

SALEM, MASS.
NEWCOMB & GAUSS CO., PRINTERS
1935

REPORT OF SCHOOL COMMITTEE

To the Citizens of Wenham:

The year 1934 was unusual in school affairs in that none of the teachers resigned during the calendar year.

During the school year which ended in June, it became very apparent that an addition to the teaching force was badly needed, if the children were to receive the grade of education to which they are entitled. Several pupils in grades three, four, five and six greatly needed individual instruction and more of a teacher's time than could be given by a teacher with more than thirty other children in two grades, in the same room. The committee met this problem by establishing a special ungraded class of pupils selected from the grades above mentioned. Miss Martha Stanley, of North Beverly, a graduate of the four-year course at Salem Teachers College, and who had one year's experience in the Lynnfield School System, was elected to teach this group and is doing excellent work.

The plan of a special group under a coach teacher, has many advantages. It permits of special attention being given to the needs of the individual pupil. If he is behind in any subject, the coach teacher has the time to coach him in that subject. The course may be made flexible to fit a pupil's individual case, and to allow more opportunity for manual training or whatever seems to best fit the needs of the particular child. The development and progress made by certain pupils has been marked since the opening of the school year. Also the plan is very beneficial to the scholars in the regular grades. The grade teachers are relieved of the problem of children who, on account of sickness or other reasons, cannot easily keep with the regular classes, and these teachers can

devote their energies to the regular work of the grades with pupils able to do the prescribed work without undue difficulty, and each grade can make more rapid progress and the course of study may be carried through with more thoroughness.

Care of the School Property

On account of extensive inside repairs made in previous years no great amount of work was done in 1934. New treads were placed on the stairs and some minor ordinary repairs were made. The Self-Inspection Blank for Schools, prepared by the National Board of Fire Underwriters, and approved and adopted by the National Association of Public School Business Officials, has recently been adopted by the Committee for use in connection with the monthly and quarterly inspection of the school building in connection with fire prevention work.

Expenditures, 1934

The Budget totalling $27,020. prepared by the School Committee was approved by the Finance Committee and an appropriation of this amount was made by the town in March. Fewer pupils attended Beverly High School in 1934 than was estimated and only three took post graduate courses there, compared with six who started post graduate courses in September, 1933. Consequently the School Committee was able to keep within the Budget and reports an unexpended balance of $447.53 at the end of the fiscal year on December 31.

Because of the renewal of a large amount of fire insurance on the building expiring in 1935, the Committee is asking for a slight increase over the 1934 appropriation. The total amount requested for 1935 is $27,212.50.

The Expenditures for 1934 were as follows:

General Expense		
Superintendent's Salary	$880 00	
Other Expenses	363 34	
Expense of Instruction		
Teachers' Salaries	12,484 00	
Textbooks	438 34	
Supplies	476 84	
Expense of Operation		
Janitor	1,500 00	
Fuel	580 39	
Miscellaneous	425 33

Tuition	4,372 13	
Vocational Tuition	434 10	
Vocational Transportation	66 20	
Outlay		
New Equipment	91 30	
Other Payments—Insurance	81 90	
Manual Training	180 57	
Domestic Science	137 50	
Printing	4 50	
		$26,572 47

During the year the following sums were reimbursed the town by the state:

Superintendent's Salary and Superintendent's Travel Allowance	$394 72	
Transportation of High School Pupils	1,300 76	
Allowance for Trained and Experienced Teachers	1,390 00	
Vocational Education (including Transportation)	369 48	
Total		$3,454 96

The Committee respectfully submits the following budget for 1935:

General Expense	
Superintendent's Salary	$880 00
Other Expenses	340 00
Expense of Instruction	
Teachers' Salaries	12,945 00
Textbooks	300 00
Supplies	600 00
Expense of Operation	
Janitor	1,500 00
Fuel	550 00
Miscellaneous	435 00
Maintenance	
Repairs	400 00

Auxiliary Agencies		
Health	500 00	
Transportation in town	2,250 00	
Transportation outside town	1,100 00	
Tuition	4,400 00	
Vocational Tuition	400 00	
Vocational Transportation	100 00	
Outlay		
New Equipment	100 00	
Other Payments—Insurance	412 50	
		$27,212 50

While the Committee asks in its budget no large sums for repairs, it calls the attention of the town to the desirability of painting the school building at least one coat in the near future, as the building was last painted four years ago. Painting at regular intervals is a good investment, lengthens the life of a building and reduces repairs. The town may wish to consider as an E. R. A. project the repainting of the building in 1935.

As usual, the Committee has had the co-operation of all connected with the school and it wishes to express its thanks to the superintendent, principal, supervisors, teachers, school nurse, and janitor, for their faithful and efficient services. The parents and citizens also have shown their co-operation, for which the Committee desires to state its appreciation.

Respectfully submitted,

EDMUND S. COGSWELL, *Chairman.*
HARRY A. STURGES, *Secretary.*

School Attendance

The attendance in all grades has been exceptionally high during the year, due to the fact that there has not been any epidemic necessitating absence on part of pupils. Our excellent attendance record may well be attributed to the fact that our children are healthy, that parents realize there is only one place for a well child to be when school is in session, and that the work of the school is made interesting to the child.

Teachers

For the first time in twelve years it is not necessary to report any resignations of teachers during the calendar year. One additional teacher was secured to conduct the coach group.

Due to the fact that great care has been exercised in the past in filling vacancies on our teaching staff, that the teachers pursue courses to keep abreast of the times, and that they are all doing most satisfactory work in their respective positions, it is hoped that all teachers now employed may be retained in the service so long as their high grade of work continues.

Emergency Educational Program

It was possible to conduct a varied educational program for those not in school for the whole or part of the first six months of the year.

The Nursery School maintained co-operatively with the Hamilton School Department, was conducted from January 1 to June 23.

In co-operation with a Committee of the Wenham Village Improvement Society whose members assisted in every way possible by giving their time in organizing and supervising several types of work and in providing equipment for carrying out the same, a varied program of Adult Education and Recreation was conducted during April, May and June.

As a result of the above co-operation from the above-mentioned committee and the furnishing of funds by the Federal Government to pay all instructors and for part of equipment, it was possible to provide instruction in golf, tennis, baseball, bowling, archery, art appreciation, dress remodeling, and arts and crafts. Approximately seventy-five persons benefited from the opportunities provided. Seven of the Wenham unemployed who served as instructors were aided financially.

Due to lack of applications of instructors and the failure of those applying for positions to be approved at the State Headquarters of the F. E. R. A., it has not been possible to maintain any of the program since July 1st.

Coach-Group

Examinations as well as teachers' ratings disclosed the fact that several pupils in grades four, five, and six were greatly in need of coaching in one or more subjects.

After considering several plans for helping this group in their work it was deemed advisable to organize a class, the

express purpose of which is to allow each pupil to progress as fast as his ability permits.

In some cases it is possible to group pupils in classes, while in other cases it is necessary and advisable to maintain a class for an individual in one or more subjects. The work in this class approaches that of an ungraded school in which the progress of the individual is the important factor.

As a pupil's work approaches the standard of work of any grade he is immediately transferred to the grade while, if necessary, others from the regular grade are placed in the coach group.

It is fully anticipated that this plan will largely eliminate subject matter failures as well as diminish the number of non-promotions and thereby build up the morale of the school.

Unit Work

In grades one to four a plan for Unit Work has been adopted. Around one unit or topic the larger part of the work in the grade is built for a week or a month as is necessary. Under this plan the teacher so organizes the work that pupil interest is aroused because of the fact that each pupil contributes something toward building up the unit of work.

At a recent meeting of all teachers of grades one through four in this Union, Miss Mabel Gove discussed "The Farm Unit," while Miss Florentina Long discussed "Progress of Transportation in America," as each had developd with their grades the unit under discussion. Several other units will be taken up in these grades during the year.

Physical Training

Our physical training program is at the present time the best it has been in several years. This is due to the work of the physical training supervisor and the co-operation of the teachers.

There has been fostered among the pupils a desire and appreciation of fair play. The splendid coach work done by Mr. Afton Bezanson with the football and baseball group has been made possible because the pupils have been taught over a period of years that organized play is necessary. The instruction given the boys tends to develop those who have special abilities in the sports but the greatest value seems to be to create an interest in and understanding of the sport among those who will perhaps be only observers of the sport after leaving our school.

Building Inspection

"The Self-Inspection Blank for Schools," prepared by the National Board of Fire Underwriters, was recently used for recording an inspection of the building by the janitor and myself. Questions on the blank were so worded that a negative reply indicated an unsatisfactory condition. Only three negative replies were recorded and in one case defects were immediately corrected. The other defects can be readily corrected when mechanics are working at the building.

Parents may feel assured that every possible precaution is being taken to guard against any possibility of a fire hazard endangering the lives of their children.

Courses of Study

The State Department of Education has provided the following courses of study prepared by the special committee on Curriculum Revision:—

- Course of Study in English for Junior-High Schools.
- Course of Study in Physical Education
  - Grades 1-3
  - Grades 4-6
- Manual for Teaching:—The Effects of Alcohol, Stimulants and Narcotics upon the Human Body.

By the adoption of courses published by the Department it is possible to have the most recent approved standards as guides in organizing the work of the schools.

Standard Tests

The Gates Silent Reading Tests (for grades 3-8) have been given in grades 3-6 inclusive. The results show that a few pupils are not up to the standard set for their age or grade. With the necessary individual instruction and guidance to the pupil in his silent reading it seems reasonable to expect that pupil difficulties will be reduced to a minimum.

The teachers of the elementary grades are being requested to attend a conference on the teaching of reading which the School of Education of Boston University has arranged to be held this month.

Hobbies

During these times as never before educators are asked to help direct the pupils' use of leisure time. Pupils are surrounded with many worth-while things to do but somehow do not seem to take advantage of the many opportunties at hand. They neglect these opportunities largely because of lack of guidance or appreciation of the satisfaction to be derived from doing something worth while. They often have a feeling that doing something which they are not required to do amounts to but little in the estimation of adults.

That our pupils may make better use of their leisure time and have the satisfaction of doing something in their own way which may be recognized by adults as commendable and from which much pleasure is derived, pupils are now being encouraged to have a hobby.

Teachers will encourage pupils to become interested in a hobby with the hope that the home will assist by making it

possible for the hobby to be carried out. If reasonable results are achieved, an exhibit of hobbies will be held at the school during the early part of the next school year.

Course on Health Education

We were fortunate in securing the services of Dr. Fredricka Moore, Consultant in School Hygiene, of the State Department of Public Health, to give six lectures for the teachers of this Union.

Topics discussed by Dr. Moore were:—

1. General Health Problems.
2. The Teacher and Her Health.
3. Teacher's Relations to Control of Communicable Diseases.
4. Correlation of Defects and Retardation in Grades 1-8.
5. How to Make Health Teaching Interesting.
6. Selection of Materials for Health Teaching.

From these interesting lectures the teachers gained much useful information to take back to their classrooms for the general improvement of our health curriculum.

Educational Tours

For several years pupils of the Civics Class of the Junior High School have been allowed a day to visit places of interest in and about Boston. The result of this one day's tour has always been most encouraging and has prompted me to arrange for pupils of grades 3-9 in groups under guidance of teachers to be taken to museums and other places of interest in and about Boston during this school year. Definite plans are now being formulated that each group may be taken to the most appropriate places of interest. If the trips for this year are

as beneficial as expected, it is hoped that these tours may be made a regular part of our school program.

Conclusion

I take this opportunity to express my appreciation for the splendid service and co-operation rendered by all who have in any way made it possible to maintain the standard of our schools as a whole and to make improvements in the several instances.

Respectfully submitted,

J. D. WHITTIER,

Superintendent of Schools.

PRINCIPAL'S REPORT

To the Superintendent of Schools,

Dear Sir:

I herewith submit my twelfth annual report of the Wenham Center School.

Our school opened in September with the same teaching force as during the latter part of the last school year. To our number was added Miss Martha Stanley, who had been selected as the teacher of our special class. She has shown a personal interest in each child of her group and like the other members of the faculty co-operates willingly in any undertaking.

Following Mr. Whittier's suggestion, our work in the first four grades, for several weeks in the fall, was directed toward certain definite topics. Miss Gove selected the study of the farm for the first and second grade pupils. Her aim was not only to teach facts about a farm, but to arouse such interest that each child would enjoy his reading of farm life, and would be anxious to learn his number facts, that he might be a salesman at the roadside stand, which his group had planned and made. All subjects, as far as seemed practical, centered around this one theme, and the results obtained were gratifying.

Miss Long chose the different methods of transportation as her unit of activity. The unit included the early methods of traveling by covered wagon and flat boat, and continued up to the present day automobile, riding over the Lincoln highway. That the children were intensely interested in the project could not be doubted, as one watched them about their work. Mrs. Eaton is always glad to correlate her art work with any project upon which a teacher may be working, and did much to supplement the work of Miss Gove and Miss Long in their activities.

As a number of Junior High pupils desired to be members of both Citizenship and Dramatic Clubs, those two groups have now formed one organization. Most of the programs thus far have been of a dramatic nature. However, the next few months will include meetings similar to those enjoyed by the Citizenship Club last year.

A group of boys interested in archery formed a club in September. Much enthusiasm was displayed, but as a satisfactory outfit proved expensive, it seemed unwise to try to carry on. At present an effort is being made to find another worthwhile interest which can be developed with the boys.

The Debating Club this year consists only of seventh and eighth grade pupils. The second year members seem to realize the value of the training they have received, and are faithful workers and leaders of the group. The outstanding debate of the season was held in the evening, and followed by a social hour. At this meeting the members and their guests listened to an animated and amusing discussion on the comparative values of Arithmetic and English.

We appreciate the co-operation of the parents, shown by their attendance at our school play, given on the fifteenth of February. The money thus earned enabled Mr. Bezanson to purchase sufficient athletic equipment, so that we now feel that it is possible for our boys to participate in their sports, well guarded and protected.

On the afternoon of May third we held our physical training exhibit. We hope that at that time the visitors could see, as could we, the improvement on the part of the pupils, in their performance. We now notice, too, that the children who have had physical training continually from the first grade show more alertness and poise, which seems to indicate that the course is producing some worthwhile results.

The eighth of June was a red letter day in our school.

Along with our display of regular school work, and our style show, each room of the elementary school gave a short health play, showing something of what we are trying to teach on that line.

In the evening of that day was held our annual Anderson Essay Contest. The pupils participating were Frank Corning, Barbara Herlihy, Edgar Joiner, Richard Phippen and Gordon Tooley. Although the first prize was won by Isabelle Peale of Hamilton, we felt very proud to again bring back to our school the cup, having won four out of five prizes.

I realize that in my report of nineteen thirty-three I asked the co-operation of the parents in helping to overcome tardiness. May I make my request more emphatic at this time? To date our tardy marks equal about seventy-eight per cent of all we had last year. This is a record which we desire to improve. I am aware that our morning session begins fifteen minutes earlier than previously, but I have not been able, in most cases, to find that the excuse for coming a few minutes late. I appreciate that unavoidable delay may occur, but trust that you will help us in our efforts to once more have a commendable record.

In closing, I wish to thank all who have helped to make the year a profitable one, the parents and teachers for their hearty co-operation, and the Superintendent and School Committee for their assistance and support.

Respectfully submitted,

BESSIE M. BUKER,

January 15, 1935. *Principal.*

CLASS ODE

Tune: Santa Lucia

Now 'neath the summer skies,
We bid farewell to thee,
O, Wenham Junior High,
Of thee e'er proud we'll be!
As we go on our way,
Our varied tasks to find,
Let us all day by day
Our motto keep in mind.

Chorus

As the years swiftly passed
Our motto e'er has been
Strive for Success.
Strive for Success.
Now that we're leaving thee,
Our motto still will be,
Strive for Success.
Strive for Success.

NORMAN C. TARR, *Chairman.*

ETHEL B. WENTWORTH, *Sec'y.*

CHAS. J. TROTT.

During the past ten years we have made a good many improvements in the cemetery. We have constructed a permanent road, have thinned out and properly pruned all the trees, and are now lawn-mowing the whole section of the old cemetery

which a few years ago was a mass of briars and scrub growth. We have straightened all the head-stones and slabs in the oldest section of the cemetery, but there are seventy-five more stones that need straightening in the next oldest section between Main Street and the tool-house. If this work, which was started some time ago, but has never been finished, can be done, it will add greatly to the appearance of the cemetery. There are also some small repairs which need to be made on our tool-house and well-curbing.

Our usual $600 for cemetery care will not allow us to make these repairs and improvements, so this year we are asking for an appropriation of $700.

REPORT OF BOARD OF HEALTH

For the year of 1935 the Wenham Board of Health was organized as follows: Frank H. Tarr, Chairman; Dr. Frederick A. Webster, Secretary, and William I. Cummings, Agent.

The year, from a health point of view, has been a very favorable one, having had but two cases of scarlet fever, three cases of measles, and three cases of whooping cough.

The changes made in our milk and dairy inspections have worked out satisfactorily, and the entire board feel that our newly elected milk inspector has made considerable effort to serve the town in an efficient manner, and that he is most deserving of credit in this effort.

FRANK H. TARR.
FREDERICK A. WEBSTER, M. D.
WILLIAM I. CUMMINGS.

SELECTMEN'S REPORT

In the report of the State Auditor you doubtless have noticed the charge that the examination "disclosed several overdrawn accounts during the period covered by the audit."

Chapter 44, Section 31 of the General Laws is quoted as the Statute which has been violated.

Your officials have tried to be very careful along this line and in defence of their actions quote the same Chapter 44, Section 31 of the General Laws, namely: "Except in cases of extreme emergency involving the health or safety of persons or property and then only by a vote in a city of two-thirds of the members of the city council, and in a town by a vote of two-thirds of the selectmen."

During 1935 two accounts were overdrawn. An automobile went through the iron guard rail at the bridge on Walnut Road and the repairs made it necessary to overdraw the Highway account $3.34.

There have been two new cases of Old Age Assistance since the annual Town Meeting and the State Department has recommended increases in some existing cases, which, with hospital bills, doctors, nurses and medicines cost several hundred dollars more than the overdraft in the Old Age Assistance appropriation.

We are perfectly willing to leave it to the honest opinion of the voters as to whether or not anyone has been guilty of violating either the letter or the spirit of the law in question.

During the year the permanent sidewalks have been extended on Cherry street from Cedar to Pleasant street; on Arbor street from School street to the residence of Mrs. Leach; and the whole of one side of Friend Court. Sections on other streets have been prepared for a bituminous top.

A parcel of land at the corner of Arbor and Porter streets has been conveyed to the Town by Everett W. and Blanche S. Sears. This land is not taken for highway purposes but to prevent any future obstruction of view at this point.

Forty-six families and one hundred and thirty-four persons have received commodities and clothing from the E. R. A.

On November 18th the E. R. A. office was discontinued here and the records were taken to Salem, so the amounts which were given out are not available for this report.

For your co-operation, please accept our thanks.

Respectfully submitted,

ELMER E. CLARKE,
ARTHUR D. PRINCE,
SAMUEL S. CONARY,

Selectmen of Wenham.

REPORT OF PARK COMMISSION

To the Citizens of the Town of Wenham:

The Park Commission submits this report.

There was no new work undertaken in 1935 by the Commission, outside the regular upkeep of the Soldiers' Monument lot, Peters' Monument lot, Pingree Park, Car Barn lot, except about 100 pine trees that were planted in Car Barn lot, Pingree Park, and along Grapevine Road on the Frick Estate.

WARRANT FOR THE ANNUAL TOWN MEETING

March 2nd, 1936

Essex, ss.

To either of the Constables of the Town of Wenham, in said County, Greeting.

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify the inhabitants of said Town, qualified to vote in Elections and Town Affairs, to meet at the Town Hall in said Town on Monday the second day of March next at Six o'clock in the forenoon, then and there to act on the following Articles:

Election of Officers by Official Ballot from Six A. M. to Eleven A. M.

Article One. To bring in their Ballots for Moderator, Town Clerk, three Selectmen and members of Public Welfare Department, Town Treasurer, Tax Collector, Auditor, Tree Warden, three Constables, all for one year; one Assessor, one member of the Board of Health, one member of the School Committee, one Cemetery Commissioner, one Park Commissioner, one Water Commissioner, two Trustees of the Public Library, all for three years.

Article Two. To act on the reports of the Selectmen, School Committee, Trustees of the Public Library, Cemetery Commissioners, and other Town Officers.

Article Three. To raise such sums of money as may be necessary to defray the Town Expenses for the ensuing year, make appropriations for the same, and determine the manner of collection.

Article Four. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1st, 1936, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, General Laws.

Article Five. To see if the Town will vote to raise and appropriate a sufficient sum of money to pay the State and Military Aid for the current year.

Article Six. To see if the Town will vote to raise and appropriate the sum of Two hundred dollars ($200.00) for the expense of Memorial Day observance, the same to be spent under the direction of the Soldiers and Sailors of Wenham.

Article Seven. To see if the Town will vote to raise and appropriate the sum of Seventy-five dollars ($75.00) for the expense of maintaining the quarters of Norman Prince Post, No. 182, American Legion.

Article Eight. To see if the Town will vote to accept the Cemetery Trust Funds received since January 1st, 1935, as printed in the Town Report.

Article Nine. To see if the Town will vote to raise and appropriate the sum of Seventy-five dollars ($75.00) for the

purpose of maintaining during the ensuing year the Mosquito Control works as estimated and certified to by the State Reclamation Board, in accordance with the provisions of Chapter 112, Acts of 1931.

Article Ten. To see if the Town will vote to raise and appropriate the sum of One thousand dollars ($1,000.00) for the purchase of materials and supplies, etc., to be spent in conjunction with the funds allotted to the Town by the Federal Work Relief Administration.

Article Eleven. To see if the Town will vote to transfer the sum of Two thousand dollars ($2,000.00) from the Overlay Surplus Account to a Reserve Fund, as provided in Chapter 40, Section 6 of the General Laws.

Article Twelve. To see if the Town will vote to ratify the action of the Selectmen, in making a five-year contract for Street Lighting with the Beverly Gas and Electric Company.

Article Thirteen. To see if the Town will vote to hold the Annual Meeting on the First Monday in March of each year, and that the meeting be called by posting attested copies of the Warrant in four sections of the Town at least seven days before the time of holding said Meeting, at such points as the Selectmen may designate.

Article Fourteen. To act on any other business that may legally come before said Meeting.

And you are directed to serve this Warrant by posting attested copies thereof, one at the Bulletin Board on Main Street, one at the Chapel at Mapleville, one near the Wenham

Neck Church, and one near the residence of Addison Williams in the eastern part of the Town, seven days at least before the time of holding said Meeting.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place of the Meeting aforesaid.

Given under our hands this Eighth day of February in the year nineteen hundred and thirty-six.

ELMER E. CLARKE,
ARTHUR D. PRINCE,
SAMUEL S. CONARY,
Selectmen of Wenham.

REPORT OF AN AUDIT OF ACCOUNTS

THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF CORPORATIONS AND TAXATION
DIVISION OF ACCOUNTS

STATE HOUSE, BOSTON

July 1, 1935

To the Board of Selectmen

Mr. Elmer E. Clarke, Chairman
Wenham, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Wenham for the period from July 18, 1932 to June 4, 1935, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL

Director of Accounts

TNW—MEF

REPORT OF EXAMINER

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the accounts of the town of Wenham for the period from July 18, 1932, the date of the previous audit, to June 4, 1935, and submit the following report thereon.

The financial transactions, as recorded on the books of the several departments receiving money for the town or committing bills for collection, were examined and checked.

Due to lack of general ledger accounts, such accounts were compiled from information obtained during the progress of the audit, and a balance sheet was prepared and is appended to this report.

A comparison of the appropriations as listed from the town clerk's records of town meetings with the aggregate amount expended from each of the appropriations, disclosed several overdrawn accounts during the period covered by the audit. To incur liabilities in excess of the appropriations voted by the town is contrary to the provisions of Section 31, Chapter 44, General Laws, which reads as follows:

> No department of any city or town, except Boston, shall incur liability in excess of the appropriation made for the use of such department, except in cases of extreme emergency involving the health or safety of persons or property, and then only by a vote in a city of two thirds of the members of the city council, and in a town by a vote of two thirds of the selectmen.

It was noted that an appropriation was voted by the town for a reserve fund at a special meeting held in October, 1934, said appropriation being provided for by transfer from the overlay surplus account. Attention in this connection is called to Section 6, Chapter 40. General Laws, which provides that an appropriation for a reserve fund may be voted only at an annual town meeting and that no direct drafts against this fund may be made, but transfers from the fund may from time to time be voted by the finance or appropriation committee of the town in order to take care of extraordinary or unforeseen expenses.

It is also recommended that specific appropriations be voted by the town for all annually recurring expenses now being charged to an appropriation for "Incidentals," thereby reducing the latter appropriation to a minimum.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were compared with the records of the several departments collecting money for the town and with the other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's orders.

The cash book additions were verified, and the cash balance on June 4, 1935, was proved by actual count of the cash on hand and by a reconciliation with statements furnished by the banks of deposit.

The savings bank books representing the investment of trust funds in the custody of the town treasurer were examined and listed, the income and expenditures being verified and found to be correct.

The payments on account of debt and interest which matured during the period covered by the audit were checked and the outstanding debt was listed.

The work of the treasurer has been performed in an accurate and efficient manner.

The books and accounts of the tax collector were examined and checked. The taxes outstanding at the time of the previous examination were audited, and all subsequent commitments of taxes were proved with the assessors' warrants commiting the taxes for collection. In order to determine the amount of collections due the treasurer, it was necessary to check in detail the receipts as recorded on the collector's cash books to the commitment books, and also to list numerous collections which had been omitted from the cash books. The payments to the treasurer were checked with the treasurer's books, the recorded abatements were checked with the records of abatements granted by the assessors, and the outstanding accounts were listed and proved.

Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town. The claim of one person that a partial payment of $13 made by him was not credited to him, was admitted by the collector and subsequently entered on the books. From the remaining replies received it appears that the outstanding accounts, as listed, are correct.

It is again recommended that all tax collections be promptly entered by the collector in the cash books, as required by Section 7, Chapter 60, General Laws.

The recorded collections of interest on overdue tax payments were checked at random. It is recommended that, in the future, the provisions of Section 57, Chapter 59, General Laws, as amended, governing the collection of interest on taxes, be closely followed.

The records of the tax titles held by the town were examined and the deeds on hand were listed.

The town clerk's records of hunting and fishing licenses from January 1 to June 4, 1935, were examined, and the payments to the State were verified.

The town clerk's record of dog licenses issued during the entire

period covered by the audit were examined, the payments to the town treasurer being verified.

In addition to the departments and accounts mentioned, the records of all other departments collecting money for the town or committing bills for collection were examined and the payments to the treasurer were verified.

The method of keeping the accounts of the town as now followed are worthy of consideration on the part of the citizens. Under the present method of accounting it is impossible for the selectmen to know the financial condition of the town. The board of selectmen in a town is, in reality, the director of the municipal corporation, and should have at its service books and records which will furnish complete information as to the finances of the town, in order that it may be enabled to plan the work most essential to be done with the means at hand.

I do not believe in, nor do I recommend, a complicated set of books for towns; nevertheless, there should be kept in a single department certain general accounting records which show the assets and liabilities, the appropriations and the charges against them, as well as a detail of all receipts and payments. These accounts, if kept up to date at all times, will enable the taxpayer to see at a glance the source from which revenue is received and the purposes for which payments are made, as well as the financial condition of the town.

In addition to the balance sheet, there are appended to this report tables showing a reconciliation of the treasurer's and tax collector's cash, summaries of the taxes and assessments, together with tables of the departmental and trust fund transactions.

For the co-operation received from the several town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE

Assistant Director of Accounts

Fifty-first Annual Report

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

To the Citizens of the Town of Wenham:

Your Board of Trustees of the Wenham Public Library herewith presents its annual report.

Acknowledgement of the many years' service of Miss Harriet A. Wilkins as a member of the Board of Trustees is but a meagre expression of the Board's appreciation of her service. By her work on the Board Miss Wilkins found an opportunity to perform a public duty. The present high standard of our library is largely due to her desire to make it a model library for a small community.

Miss Eleanor Perkins who had served most efficiently as assistant librarian for a year, resumed her studies in September to prepare herself for her chosen vocation in occupational therapy, and therefore found it impossible to continue her work at the library. Miss Katherine Duffy has been employed as assistant librarian since September.

The subscriptions to several magazines expired during the year. These were renewed for a two or three year period that the lowest possible prices might be obtained.

Several very valuable historical books—History of Danvers, Town Records of Salem, Ecclesiastical History of New England—have been purchased as a nucleus for a historical department of rare books. "Book Week" was observed during November, at which time books by Mark Twain were on display, since it was the centenary of his birth.

As in the past, the purchasing committee, appointed by the Board of Trustees, has made all purchases for the library, endeavoring to secure all books and supplies from such repu-

table concerns as offered the lowest prices together with the privilege of returning whatever books were not considered satisfactory after having been read by the reviewing committee.

Your Trustees have purchased many books to be paid for from the several funds. It has seemed a wise policy to expend the income from the funds rather than to allow the funds to accumulate.

Your Board of Trustees takes this opportunity to express to the librarian and the assistant librarians its appreciation for the most satisfactory manner in which the library has been made to serve its patrons.

Respectfully submitted,

FRED ASHWORTH,
HELEN AYLWARD,

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF WENHAM

FOR THE

YEAR ENDING DECEMBER 31, 1935

SALEM, MASS.

REPORT OF SCHOOL COMMITTEE

To the Citizens of Wenham:

Your School Board believes that the citizens of Wenham should be given a general account of the business transacted in meetings held during the year, and, in this report, attempts to acquaint you with things which have been done, and with the expenses of operation. For the details of school management we ask you to refer to the report of the Superintendent, the Principal, and the other reports which follow.

All of the teaching staff were re-elected, and all except three returned. Miss Ackerman, the Latin and Algebra teacher, resigned to be married; Miss Stanley, the Opportunity Class teacher, accepted a position in Beverly; Miss Riley, the Supervisor of Physical Training, took a full-time position in Brighton. These places were filled by Miss Ednah Ash, a graduate of Bates College, who has completed courses at Massachusetts Institute of Technology, and has had several years' teaching experience at Traip Academy, in Kittery. Mrs. Bernice H. Crawley, a graduate of Castine Normal School, having completed several courses at Boston University, former Principal of an elementary school in Canaan, Connecticut, and for several years in charge of English in the Wenham Junior High School, was asked to teach in Miss Stanley's place. Miss Eva Teague, graduate of Alabama University, Posse-Nisson School of Physical Education, Swimming Instructor at Camp Penco, and former instructor of Physical Training at Kendall Hall, was elected Supervisor of Physical Training, coming to us one full day every two weeks.

John D. Whittier, Superintendent since 1923, was re-elected for a term of three years, at the same salary, when the com-

mittee members comprising Superintendency Union No. 46, met at the Wenham School, April 29th, for the annual meeting.

At this meeting Mr. A. B. Lord, of the State Department of Education, and a former superintendent of the Union, was the speaker. Instead of the customary dinner, the local committee planned a social hour with light refreshments furnished by the School Board and prepared by the Domestic Science Department.

For the first time the school building was opened in the summer to allow the use of the basement rooms and equipment for classes for both boys and girls in carpentry and model airplane building. This was done in co-operating with the Village Improvement Society's extensive summer playground program, and instruction and supervision in these classes was furnished by that organization, who employed Mr. Bezanson.

This being the year of the expiration of the three-year contract for transportation of pupils to the Center School, and there being more than one candidate for the job, it was decided to draw up new specifications for a contract, and to advertise for bids. Taking into consideration the petition of George A. Williams and twenty-four other parents, requesting that the present driver be retained, after much deliberation it was considered inadvisable to make a change, therefore the contract for School Bus transportation was awarded to Sidney K. Prince for a period of three years, at $1,800 a year, or $450 less than the former contract. Mr. Prince has operated the School Bus in Wenham for more than twelve years, has never been involved in a serious accident, is known to be a careful and experienced driver, has satisfactorily looked after the children during the time they were under his care; and the decision was that it was best to accept Mr. Prince's bid, although higher than another submitted, because of his experience.

Transportation for children living near the Topsfield line, Pleasant Pond, and on Larch Row, was requested at the beginning of the school year. Regarding the first request, the pupil was sent to the Topsfield School, where schooling and transportation were granted, with the understanding that Wenham will reciprocate should occasion arise in the future. No arrangements could be made in the second case; but in order to accommodate a very small child living at a distance on Larch Row the school bus was routed via Larch Row on the morning trip, and via Walnut Road for the afternoon trip. This child moved from town, and since December first both trips have been made over Walnut Road, accommodating more children living at a greater distance from school.

This year it seemed advisable to erect a permanent fence on the west side of the school grounds to take the place of the shrubbery hedge which was partially dead, and had proved inadequate in protecting the gardens and private property adjacent to that boundary. After considering bids from several firms, the contract was awarded to J. D. Barnes, and a heavy wire fence was erected. The ground in front of the fence was reseeded and plants replaced.

The Park Commission, in co-operation with the Tree Warden, planted groups of evergreen trees on the School grounds, several of which did not live. It is hoped that these will be replaced in the near future, as these groupings, if they become permanent will add to the attractivness of the School grounds. A request has been made to the Selectmen for a permanent sidewalk on School Street, and this has been promised—to be installed when the weather permits.

The committee has insured the school building for $46,000, divided as follows:

Salem Mutual Fire Insurance Company....$10,000
Lester E. Libby, Insurance Agent.....$10,000

W. Arthur Trowt, Insurance Agent.....$26,000

The school furniture is insured for $5,000, in the Home Insurance Company, Lester E. Libby, Agent.

The boiler insurance was placed in the Travelers Insurance Company.

The committee has taken out three year policies, arranging to have approximately the same amount expire each year to equalize premium payments.

As is customary each year the boiler was inspected by a representative of the Travelers Insurance Company. The deport recommended minor repairs and a hydraulic test to determine the strength of the lower tubes. This test indicated the necessity of immediate repairs and new tubes throughout; and the committee voted to have the repairs made and to request the Selectmen for authority to exceed its appropriation, if necessary.

With the exception of repainting the fire-escape and refinishing the remaining desk-tops not already done, and except for buying a teacher's desk and chair and replacing the benches in the lunch room with four dozen chairs, only minor repairs have been made and no new equipment purchased. This fact makes it quite apparent that more repairs will be necessary in 1936. The boys' basement must be renovated with new toilets and equipment, at an estimated cost of $697. The lunch room should be done over, with a covering of plywood on the two outside walls, to prevent the moisture from the stone penetrating the paint, and the entire room painted, at an estimated cost of $205. When the assembly hall is refinished the entire building inside will be in a satisfactory condition, and it is hoped that the committee will be able to have the stage remodelled and the blackboards removed, new curtains installed, and the room repainted.

In the School Committee's report of 1934 attention was called to the advisability of painting the outside of the school building at least one coat, and this was suggested as an E. R. A. project. Since this has not been done, it is urgent that the building have at least two coats of paint during the summer of 1936.

Your committee believes the estimated amount allowed for repairs in the requested budget will cover the cost involved in refinishing the lunch room and assembly hall, but requires a special appropriation to allow for repairs in the boys' basement, and for outside painting.

Due to a decrease in the estimated number of pupils attending Beverly High School, the reduced cost of transporting pupils in town; economy in the use of supplies, and a well-filled coal-bin, the expenditures were kept within our allotment in spite of the unforeseen extra expense of the new tubes for the boiler.

The expenditures for 1935 were as follows:

Teachers

Three resignations were received during the year. Miss Martha Stanley resigned as teacher of the coach group to accept a position in the Beverly School Department. Mrs. Norman Crawley was elected to fill the position thus vacated.

Miss Eva L. Teague of Beverly succeeded Miss Alice Riley, who accepted a position in Brighton.

Miss May R. Ackerman resigned to be married and was succeeded by Miss Ednah Ash.

We were fortunate in filling all positions with teachers of experience.

Educational Tours

In my report of last year it was recommended that pupils be taken to places of interest in and about Boston. I am pleased to report that Mr. Sidney Prince allowed the use of his school bus, which was driven by Mr. W. L. Wildes, and that three trips were taken in the spring by as many groups of pupils accompanied by their teachers.

The first trip, for grades three and four, comprised a visit to Cambridge Children's Museum where they were entertained

by movies of wild animals, Agassiz Museum and a return home through Boston and the Sumner Tunnel.

The second trip was arranged for pupils of grades five and six. This trip took them to the East Boston Airport through the Sumner Tunnel, a visit to Faneuil Hall, the Old State House, the Hall of Flags in the new State House, through the Public Gardens, Agassiz Museum and the Zoo at Spot Pond.

The third trip was arranged for the seventh and eighth grades of the Junior High. They visited places of historical interest in Lexington and Concord, The Wayside Inn at Sudbury and the East Boston Airport.

During October an invitation was received from the Board of Park Commissioners at Salem, which was accepted, to have the pupils and teachers visit the Pioneer Village.

These several trips have been of so much value to pupils that I recommend they be continued.

Promotion of Health

The necessity of a body as nearly one hundred percent perfect as possible is necessary that one may attain from opportunities offered the fullest degree of satisfaction.

Our health program has a two-fold purpose:—to prevent illness and to restore health to those who may be ill. The painstaking efforts of the school physician and school nurse through the thorough physical examinations given annually to all pupils and the follow-up work on all cases needing medical or other care helps in keeping the pupils' health.

The Chadwick Clinic for detecting tuberculosis in its early stages has now been transferred to the Tuberculosis Sanitorium at Middleton for tests and follow-up work with pupils of our schools. We are fortunate in being able to avail ourselves of the services of specialists from the Sanitorium for detecting any cases of tuberculosis in its early stages. The close contact

established by the specialists from the Sanitorium with the School Physician, School Nurse and pupil's family physician aids in achieving beneficial results if parental co-operation can be assured.

The Dental Clinic conducted by Dr. Edmund Tobin affords an opportunity for pupils to have a free dental examination and report on the same. They may then have the necessary dental work done by their family dentist or by Dr. Tobin.

State Requirements

An Act of the last General Court requires that all teachers in our public schools take the "Oath of Allegiance," which is: "I do solemnly swear (or affirm) that I will support the Constitution of the United States and the Constitution of the Commonwealth of Massachusetts and that I will faithfully discharge the duties of the position of.....in
(Title or Position)
.....according to the best of my ability.
(Designation of School)
....." All teachers have complied with this
(Signature)
requirement.

The United States Flag is displayed on all school buildings in suitable weather, a United States Flag is on display at all times in each of the several classrooms and the "Pledge of Allegiance to the Flag" is given as required by law.

School Grounds

The Park Department contributed trees and necessary labor to remove many evergreen trees from the Town nursery to the school grounds, where they were transplanted. Although many of the trees did not live it is anticipated that other trees will be secured this spring to complete the work of beautifying the grounds as already started.

Subject Matter

Without going into details I will say that our emphasis on Academic work this year has not been confined to any particular subject of the curriculum but rather devoted to the improvement of the work as a whole. By such a program it has been possible to improve the instruction more specifically as needed and to give greater emphasis to the individual needs of the children. It is anticipated that such a program of procedure will for the present be of more educational value in solving some of our problems, of which I am aware, than any other procedure for the present time.

Respectfully submitted,

JOHN D. WHITTIER,
Superintendent of Schools.

PRINCIPAL'S REPORT

To the Superintendent of Schools:

Dear Sir:

I herewith submit my thirteenth annual report of the Wenham Center School.

Due to the resignations in the summer of two of our teaching staff, school opened in September with Miss Ednah Ash of Lisbon, New Hampshire, as teacher of Algebra, Latin and History, and Mrs. Bernice Crawley as the teacher of our special class. Each is well adapted to the position for which she has been selected, and is showing much interest in the pupils with whom she works.

The other teachers, too, have a personal interest in the welfare of the children of Wenham, and are willing to put forth the greatest amount of effort that the standard of our school may be of the highest.

The unit work which was begun last year in the elementary grades is still being continued. The first and second grades have centered their lessons this fall around the home. Along with assisting in the furnishing of a miniature home, there was much discussion of the family, its members, and the duties and privileges of each. Unlimited opportunity offered itself in this project for the correlation of reading, spelling, language and art. To the children at least, the climax of the unit was probably reached when, on visiting day, June Woodbury, as mother, served afternoon tea to her friends. Although such an affair hardly seems like school work, we who observed the preliminary teaching felt it fully justified by the little acts of thoughtfulness and courtesy developed.

Art has played an important part in the unit of grades three and four. There the topic being considered is the Founders of

America. Following a study of the American Indian, life in an English colony, as observed at Pioneer Village, was taken up. The class is now studying the settlements by the Dutch. The settlers from other countries will be discussed in more or less detail, depending on their importance to the development of the United States.

In grade six, Italy has been chosen by Miss Keyes as a country for special study. Clay maps, blackboard drawings, notebooks and posters are included in the plans of this unit. Surely such activities cannot help but add to the interest of the boys and girls in their school work.

As has been the case nearly every year since the organization of our Junior High, the school again has its dramatic and debating clubs. In addition to these, two more clubs were formed last September. The boys' cooking group, under the direction of Miss Ash, is proving very popular. A knowledge of the preparation of simple dishes that might be suitable to camp life is the club's aim, and thus far the attitude of members has been of the best.

Each of the boys belonging to Mr. Bezanson's aeroplane club is assembling a miniature plane, and is looking forward to the flying of it next summer.

We are grateful to the townspeople who, by their attendance at our school play on April twelfth, enabled us to earn about thirty dollars toward a much needed stage curtain. We hope that by another year our funds will have sufficiently increased to permit the purchase not only of a curtain that will be clean and attractive but of one that can be manipulated without a great outlay of time before each performance.

Both the English and printing departments deserve credit for the two editions of the *Breeze* published last year. I think that now, most of the homes of the town are somewhat acquainted with that magazine. However, to many, the *Midget*

Breeze, a paper showing representative work of the children of the first six grades, was a novelty. Under the direction of the teachers, the material was assembled. After it had been mimeographed, and the drawings colored by the pupils, a copy was sent to each home, as well as to the other elementary schools of the union. The painstaking effort of the boys and girls showed beyond a doubt their pride in their paper.

April seventeenth was an outstanding day in our school, for then was held our annual Anderson Essay Contest. Each participant had written on one of the justices of the United States Supreme Court. Of the five prizes, Hamilton received the first and fourth, yet our contestants, Lois Waite, Donald Hughes, Gordon Tooley, Edmund Mead and Edgar Joiner, as a group were awarded more points, and therefore won the cup again for Wenham.

Most parents, I think, are cognizant of the fact that to be on the honor roll in the Junior High, a student must have no rank lower than eighty. It has been called to our attention that such a high standard is discouraging to some pupils, who feel that they can never reach that goal in art, music, or perhaps, penmanship. We can readily see how such a viewpoint might well be taken, but yet by a careful study of our records, we find that it is for the most part unwarranted. The teachers realize that many pupils are not artists, talented musicians or even gifted penmen, and so take into consideration effort, neatness of papers and improvement. Our records show that only a small percentage of children have been kept from the honor roll by these subjects. Of that number some by persistent effort have succeeded in reaching the goal and remaining there, while others have won but then failed to keep up to their standard, showing that effort probably waned for a time. After considering the matter, it has seemed advisable to us to continue to require honor rank in all subjects, and we trust that

the parents will rally to our support and encourage the children to persevere.

In conclusion, may I thank the parents for the co-operation which they so willingly give, the teachers for their loyalty, and the superintendent and school committee for their consideration and support.

Respectfully submitted,

BESSIE M. BUKER,
Principal.

CLASS ODE

Teachers of Wenham School,
We bid farewell to you,
True to your trust you've been,
To help us do our best.
Farewell, teachers, farewell to you.

Schoolmates of Junior High,
We bid farewell to you,
Leave you to carry on,
Always to do your best.
Farewell, schoolmates, farewell to you.

Friends of our Wenham School,
We make this pledge to you,
Always our motto keep,
To try to do our best.
Farewell, true friends, farewell to you.
